*CITATIONS.—“Pol. C.,” “Crim. C.” and “Civil C.” refer to the Code of Alabama, 1923, adopted by the act of August 17, 1923. Volume 1 thereof contains the Political Code, Volume 2 the Criminal Code, and Volumes 3-4 the Civil Code. “G. A. 1919” refers to the General Acts of Alabama of 1919, which include the revenue act (No. 328) of 1919. “G. A. 1923” refers to the General Acts of Alabama of 1923, which include the act (No. 376) of September 27, 1923, the Agricultural Code of Alabama. Said act was enacted after the Code of Alabama, 1923, was adopted. (See the note to section 3206 of the Criminal Code.) The Agricultural Code of Alabama codifies the general food and drug law, also numerous special food and the divers agricultural laws. Note the following sections of Act No. 376:

If any provision of this act or the application thereof to any person or circumstances shall be held by the Supreme Court of the State to be unconstitutional, such holding shall not affect any other provision of this act, or the application of such provision to other persons or circumstances, it being the intent and purpose hereof that each provision hereof shall stand or fall on its own merits and that the judicial annulment for unconstitutionality of any provision hereof shall have no effect upon any other provision not so annulled. (Id. § 2.)

In lieu of any provision of this act that shall be judicially annulled for unconstitutionality, the existing law at the time of the adoption of this act governing that subject shall be and remain in full force and effect and shall take the place of and be substituted for the provision so annulled. (Id. § 3.)

This act shall, except as may otherwise be provided for certain articles contained herein, go into effect on October 1, 1923. (Id. § 5.)

Sale of Products Not Complying With Requirements of Act, May be Suspended.—If at any time the Commissioner of Agriculture and Industries, or his duly authorized agent, shall have reason to believe that any products or articles mentioned in section 2 of this article, which are offered or exposed for sale in this State, do not comply with the requirements of this act as to ingredients, substances, analysis, weights or measure of the same, it shall be his duty by written order to suspend the sale of the same until he shall have satisfied himself, or shall be satisfied by an analysis, or otherwise, that such article or product is made up or compounded as required by this act. If he shall find that the same does not comply with any article or provision of this act, then he is authorized to proceed with regard to the same as provided in section 2 of this article. (G. A. 1923, No. 376, Art. 21, § 1.)

12. Proceedings; Seizure and Condemnation, etc.—Any fertilizer, fertilizer material, ground limestone, paint, white lead, linseed oil, turpentine, kerosene or other illuminating oils, insecticides and fungicides, commercial feeds, agricultural seeds, eggs, vinegar, sausage, milk, cream, ice cream or other dairy products, imitation butter and cheese, or any article of food or drug which is adulterated, misbranded, or under standard, grade, weight or measure claimed within the meaning of any article or provision of this act, and which is manufactured for sale, held in possession with intent to sell, offered or exposed for sale, or sold or delivered within this State, shall be liable to be proceeded against in the Circuit Court of the county where the same is found, and seized for confiscation by writ of attachment for condemnation. Such writ shall issue upon the sworn complaint of the Commissioner of Agriculture and Industries or his duly authorized agent, taken by an officer authorized to administer an oath to the effect that such article or product is adulterated or misbranded or is under standard, grade, weight or measure claimed, as the case may be, within the meaning of this act. The said sworn complaint by said Commissioner of Agriculture and Industries or his duly authorized agent, may be amended at any stage of the proceedings. Said writ shall be returnable in five days to the court issuing the writ; such court shall hear and decide whether the allegations of the complaint are true and whether said article or product shall be condemned and confiscated. Such hearing shall not be had until five days' notice of the date therefor shall have been served on the owner, his agent, or any other party having an interest in the same, except in cases defined in subhead (a). Service of a copy of the writ of attachment showing the returns of the attaching officer shall be sufficient notice for the purposes of this section. Such writ may be executed by the Commissioner of Agriculture and Industries, his duly authorized agent, or by any sheriff or constable in the State. Upon the seizure of the article or product described in the affidavit, it shall be the duty of the officer or person executing the writ to return same to the Circuit Court, with his return thereon, and within five days after its return, the court shall make up an issue between the State as plaintiff and the property seized as defendant. (a) In the event that the owner or his agent cannot be found in this State, then said service may be perfected by posting a copy of the writ in a conspicuous place upon the premises where the goods were found and seized, and by mailing a copy thereof by registered mail to the owner, or his agent, to his last known address, and this shall be deemed to be sufficient service of the notice required by this section. If upon the return day of such writ of attachment, the owner of the article or product, his agent or other party having an interest in same thus notified fails to appear and show cause why said goods should not be condemned, judgment of condemnation and confiscation shall, upon such default, be rendered by the court on the basis of said complaint. If such owner or agent or other party having an interest in such article or product shall

on or before the return day of the writ of attachment, or upon such other day as the court upon application of such party may determine, shall file an answer upon oath denying the allegations of adulteration, misbranding or under standard, grade, weight or measure, as the case may be, in said complaint, the issue thus raised may be determined by the court after hearing all the evidence offered by or on behalf of all the parties to the proceedings. Any such party may demand a jury trial of any issue of fact to be determined in the proceedings instituted hereunder, and in case a jury trial is demanded, the judgment rendered by the court shall be in accordance with the facts as found by such jury; provided, however, that the verdict of the jury may be set aside by the court where manifestly contrary to the evidence or law. If a judgment of condemnation and confiscation is rendered against such article or product as being adulterated, misbranded, or under standard, grade, weight or measure, within the meaning of this act, the same shall be disposed of by destruction or sale, as the court may direct, and the proceeds thereof, if sold, less the legal costs and charges, shall be paid into the treasury of this State, but such goods shall not be sold contrary to the provisions of this act; provided, however, that upon the payment of the costs of such attachment proceedings and the execution and delivery of a good and sufficient bond to the effect that such article shall not be sold or otherwise disposed of contrary to the provisions of this act, the court may by order direct that such article or product shall be delivered to the owner thereof. (Id. § 2.)

13. Further Procedure in Case of Violations.—If it shall appear from examination or analyses of fertilizer, fertilizer material, ground limestone, paint, white lead, linseed oil, turpentine, kerosene or other illuminating oils, insecticides and fungicides, commercial feeds, agricultural seeds, eggs, vinegar, sausage, milk, cream, ice cream or other dairy products, imitation butter and cheese, or any articles of food or drugs that any of the provisions of this act have been violated, the Commissioner of Agriculture and Industries shall certify or cause to be certified the facts to the county or State solicitor, with a copy of the results of the analysis or examination, and said county or State solicitor, upon receipt of this information, shall cause appropriate proceedings to be instituted in the proper court, for the imposition of fines and penalties herein provided. (Id. § 3.)

14. Reports of Analysis of Samples; Investigations, etc.—The professor of agricultural chemistry of the Alabama Polytechnic Institute shall be the official chemist of the department, and ex-officio State Chemist. The analysis reports of such samples shall be made to the Commissioner of Agriculture and Industries with the least possible delay. He shall also, at the request of the commissioner, make or cause to be made investigations and reports on such matters as may be deemed of interest to the department. He may, when necessary, depute the ranking member of the staff of the chemical laboratory of which he has charge to report and sign analyses and to make reports upon such matters as the chemist may refer to him. He may depute the ranking professor of pharmacy to analyze and report on samples of drugs, and the ranking professor of botany to examine and make reports upon the quality and purity of agricultural seed. The said ex-officio State Chemist or his assistants shall be entitled to necessary traveling expenses while on duty assigned by the commissioner, payable out of the "Agricultural Fund" or of any funds to the credit of the Department of Agriculture and Industries; provided, that the State Chemical Laboratory shall be organized and manned with employees (with the exception of the State Chemist) who shall devote their entire time to the work of the State Chemical Laboratory, and that no part of the State's funds available for analytical work and reports by the State Chemical Laboratory shall be expended for the salary, in whole or in part of any member of the teaching staff of the Alabama Polytechnic Institute, with the exception of the State Chemist (whose salary shall be prorated between the Alabama Polytechnic Institute and the State Chemical Laboratory, according to a fair division of the time devoted to the State Chemical Laboratory, following an agreement with the Commissioner of Agriculture and Industries, approved by the Governor) and with the exception of such members of the teaching staff as may be employed to devote their entire time to the work during a non-teaching term,

nor for any purpose or purposes other than those authorized in this act, the object of this provision being to secure the service of full time employees, and to preclude the concurrent employment and payment of chemists for analytical work and teaching work, thereby guaranteeing quick service in making the required analyses. Provided, further, that all charges involved in making tests and analyses and in reporting on samples tested or analyzed shall be at actual cost and certified by the State Chemist to the Commissioner of Agriculture and Industries in itemized form and after being approved by the commissioner and by the Governor shall be paid out of the appropriation for analytical work provided in this act, with the restriction that no payment be made on account of rent nor on account of equipment and supplies, excepting such equipment and supplies as are required for the specific use of the State Chemical Laboratory and devoted exclusively to this use, and with the further restriction that no charge whatever on any account (excepting for necessary traveling expenses) shall be made for analyses of and making reports on fertilizer, fertilizer materials, kerosene and other illuminating oils, funds having been otherwise provided for those purposes. (Id. § 4.)

15. Duties of State Chemist.—The State Chemist shall test or analyze and promptly report on all samples of soils, fertilizer, fertilizer material, ground limestone, paint, white lead, linseed oil, turpentine, kerosene or other illuminating oils, insecticides and fungicides, commercial feeds, agricultural seeds, eggs, vinegar, sausage, milk, cream, ice cream, or other dairy products, imitation butter and cheese, bleached flour, or any article of food, drugs or other products, submitted by the Commissioner of Agriculture and Industries for analysis, and to perform other services for the Department of Agriculture and Industries, as required by law. (Id. § 5.)

16. Certificate of Analysis or Examination, Prima Facie Evidence in Courts, etc.—A certificate of analysis or examination by the State Chemist or the ranking assistant to the State Chemist in the work of the chemical laboratory, when properly verified by affidavit, shall be admissible and shall be prima facie evidence of the facts therein stated in any of the courts of this State, on the trial of any issue involving the merits, and the quality of the bulk from which the sample was taken shall prima facie be presumed to be the same as the quality of the sample as shown by the analysis or examination. (Id. § 6.)

Access to Premises, etc., by Proper Officers; Bulletins and Information, by Whom.—The Commissioner of Agriculture and Industries is authorized in person or by deputy or by his agents to have free access to all premises, places of business, m.l.k, buildings, carriages, cars, vessels, parcels of whatsoever kind used in the manufacture, transportation, importation, sale or storage of any fertilizer, fertilizer material, ground limestone, paint, white lead, linseed oil, turpentine, kerosene or other illuminating oils, insecticides and fungicides, commercial feeds, agricultural seeds, eggs, vinegar, sausage, milk, cream, ice cream or other dairy products and containers thereof, imitation butter and cheese, or any article of food or drugs, and shall have the power and authority to examine or inspect said article or product or to open any parcel, package, bag, vessel or other receptacle containing, or supposed to contain, any of said products or articles, and upon paying or offering to pay full value of said sample, to take therefrom in the manner prescribed in this act, samples for analysis. The Commissioner of Agriculture and Industries is also authorized to publish, from time to time, in reports or bulletins, results or analyses of samples, together with copies of the laws and such additional information as may be of interest to the public. Bureau of Standards under a resolution of Congress, approved June 14, 1836. The new weights and measures received shall be used in addition thereto or in renewal thereof of the standard weights and measures received from the Secretary of State. These standard weights and measures when certified by the National Bureau of Standards shall be the State standards. Provided that similar standard weights and measures, now in possession of the probate judges of the several counties in Alabama, and any new weights and measures when certified by the National Bureau of Standards are kept in a safe and suitable place, to be approved by the Superintendent of Weights and Measures, in the office of the probate judge, may be used in like manner and for the same purposes as are the standard weights and measures kept in the office of the Superintendent of Weights and Measures. The superintendent shall issue from time to time regulations for the guidance of city and county sealers, and the said regulations shall govern the procedure to be followed by the aforesaid officers in the discharge of their duties. (Id. § 6.)

233. County and City Sealers.—The Board of Revenue, or court of county commissioners, of each county and the mayor of each city, who may, in their discretion, appoint a sealer under this article, shall keep, at all times, at the expense of the county or city, a complete set of weights and measures and other apparatus of such material and construction as said Superintendent of Weights and Measures may direct. All such weights, measures and other apparatus having been tried and accurately proven, shall be sealed and certified to by the State Superintendent as hereinbefore provided; and shall be then preserved by the county or city sealer as public standards for such county or city. The county sealer shall at least once each year, and as much oftener as he may deem necessary, see that the weights, measures, and all apparatus used in the county are correct. The county and State inspectors or agents may, for the purpose above mentioned, and in the general performance of their official duties, enter or go in upon and without formal warrant, any stand, place, building, or premises, or stop any vendor, peddler, junk dealer, coal wagon, ice wagon, delivery wagon, or any dealer whatsoever and require him, if necessary to proceed to some place which the sealer may specify, for the purpose of making the proper tests. The county sealer of weights and measures shall forthwith on his appointment give a bond in the penal sum of one thousand dollars with sureties to be approved by the appointing power for the faithful performance of the duties of his office: Provided, however, that nothing in the above shall be construed to prevent two or more counties from combining the whole or any part of their districts as may be agreed upon by the court of county commissioners or board of revenue of such counties, with one set of standards and one sealer, upon the written consent of the State Superintendent of Weights and Measures. A county sealer appointed in pursuance of such an agreement for such combination, shall, subject to the terms of his appointment, have the same authority, jurisdiction, and duties as if he had been appointed by each of the authorities who are party to the agreement. In those cities in which no sealer is appointed as above, the county sealer of the county, if there be one, shall perform in said cities the duties and have like powers as in the county: Provided, however, that nothing in the above shall be construed to prevent any county and a city situated from combining the whole or any part of their districts as may be agreed upon by and between the court of county commissioners or board of revenue, of the county and the mayor and aldermen, or city commission, of such city, with one sealer, subject to the written approval of the State Superintendent of Weights and Measures. A sealer so appointed in pursuance of an agreement for such combination shall, subject to the terms of his appointment, have the same authority, jurisdiction, and duties as if he had been appointed by each of the authorities who are parties to the agreement. Said guaranty to afford protection must contain the name and address of the party or the parties making the sales of such article to said dealer, and an itemized statement showing the article purchased; or a general guaranty may be filed with the Secretary of the United States Department of Agriculture by the manufacturer, wholesaler, jobber, or other party in the United States and be given a serial number, which number shall appear on each and every package of goods sold under such guaranty with the words "Guaranteed under the Food and Drugs Act June 30, 1906." Bakery Products.

25. Handling and Sale of Bread, etc.; Exceptions.—The handling and sale of bread and all bakery products within the State of Arizona, and all practices connected therewith, shall be hereafter so conducted as to prevent dissemination of disease or contamination, and dissemination of the infection in bread commonly

The State Board of Health shall make such reasonable rules and regulations as may be necessary for carrying the provisions of this section into effect; shall forward such rules and regulations to the several boards of health in the counties, cities and towns of this State, and shall superintend the enforcement of the same. This section shall not be construed to apply to crackers or to such other bakery products as are packed at the place of production in cartons, cans, boxes or similar permanent containers, and where the product is so packed or sealed at the place of production as to fully protect the freshness and wholesomeness of the product and to protect it from contamination, adulteration, deterioration and fraud in the channels of trade, and which remain, except in so far as may be necessary to prevent waste, in the original unbroken package in which packed. The State Board of Health may establish and promulgate such exceptions or exemptions, not in conflict with the express purpose of this act, as may be necessary to facilitate the sale of accumulated or unsold stocks of wholesome bread or other bakery products. 31. Interference, etc., With Officers, Unlawful.—It shall be unlawful for any person to prevent, or attempt to prevent, said State inspector of weights and measures, or any city sealer of weights and measures, entering any such room or place, or in any way to interfere with the performance of the duties of said State inspector of weights and measures, or of said city sealer of weights and measures, as provided by this act. Each sheet or page shall be authenticated by the signature of the tester, and a duplicate record shall be deposited by said licensed tester, immediately after completing the test on the day's samples, in a box provided by the purchaser or receiver of milk or cream; said box to be constructed, sealed and maintained in accordance with the rules and regulations adopted by the Dairy Commissioner. The original test record sheets shall be delivered to the management of the concern for whom the tests are made immediately upon completion of the tests. The duplicate test record sheets shall be deposited immediately in an official box supplied for the purpose, made in accordance with blue print specifications obtained from the Dairy Commissioner. Such official test record box shall be kept in the test room at all times, and the contents thereof shall be open only to the State Dairy Commissioner. or corporation in any other locality, after making due allowance for the difference, if any, in the grade or quality of the commodity or conditions locally affecting its production and in the actual cost of transportation from the place of purchase to the place of manufacture, sale or storage, shall be deemed guilty of a misdemeanor and punished as herein provided. (Special Session, L. 1918, c. 8, § 15.)

The hauler or other agent of the purchaser shall thoroughly mix the milk or cream of each patron by pouring or stirring until such milk or cream is uniform and homogenous in quality and contents before a sample for test is taken. The same rule shall apply when sampling is done at a creamery, cheese factory, condensory or shipping station. It shall be unlawful for any person or persons to use any test, tube, bottle, pipette or instrument in connection with testing which is not perfectly clean; and for the purpose of this act any unclean test bottle or other instrument is declared inaccurate. All tests made by the purchaser shall be maintained at a temperature of at least one hundred and twenty (120) degrees F. for ten minutes before the reading of the per cent of butter fat is made. 64. Inspectors, Destruction of Diseased or Infected Plants.—The inspectors are hereby authorized and it is their duty whenever the occasion may arise, to enter in and upon any premises, building, or place, where plants may be growing, or vegetables, fruits, seeds and agricultural products, or any article connected with handling, packing and shipping of the same, may be stored, for the purpose of inspecting, or causing an inspection to be made to determine whether any injurious pest is present. To this end, and otherwise to carry out the provisions of this chapter, said inspectors may open any car, box, bundle, or package with the least possible injury to property or business. Whenever an inspector discovers a pest which is injurious to the agricultural or horticultural interests of the State, and which it is practicable to eradicate or suppress, he may, with the advice and under the direction of the entomologist or his assistants, notify in writing the owner, owners or person or persons in charge or in possession of the premises, buildings, or places as aforesaid, that the same are infested or contain or harbor an injurious insect or other pest, and said inspector may require such person or persons to eradicate, destroy or suppress such pest within a reasonable specified time by means of the most economical and effective method available. In the case of the codling moth, this provision shall apply to trees and orchards on, and in which, infested fruit has been discovered by the said inspector, or his predecessor, at any time previous to the serving of the aforesaid notice.

Any and all such plants, fruit, vegetables, seed, agricultural products or other articles, infested by or harboring any injurious insect or other pest are hereby adjudged and declared to be a public nuisance and shall be contraband pending action taken in compliance with the aforesaid notice or action taken by the inspector as herein authorized and directed and shall remain contraband until said nuisance is abated. Whenever any such nuisance, practicable to abate, shall exist within the jurisdiction of any inspector, on the property of any non-resident, or any property the owner or owners of which cannot be found by the said inspector after diligent search and publication of said notice in the official newspaper of the county where such nuisance exists, or on the property of any owner or owners upon whom notice aforesaid has been served, and who shall refuse or neglect to abate the same, or who shall in writing request the said inspector to take such action as may be necessary at his or their expense, it shall be the duty of the inspector and he is hereby authorized to cause said nuisance to be at once abated in a summary manner, or to take such steps towards the abatement of the nuisance as the danger to agricultural and horticultural interests and the welfare of the community may require. Whenever the circumstances require, the abatement of such public nuisance may include the destruction of the plants, vegetables, fruit, seed, agricultural products, or other articles, infested by an injurious insect, or harboring an injurious insect or other pest, or any portion of any or all such articles as may be necessary to the public interest.

The expense incurred in connection with such action, unless voluntarily assumed by the owner or owners of the aforesaid property, shall be charged against the State, and paid out of the fund authorized by this chapter upon vouchers of the commission. Except that when special provisions are made for the eradication or control of specified pests, any and all such sums so paid, shall be charged against the owner or owners of the property and premises from which such nuisance has been removed or abated in pursuance of this chapter and shall be recovered by the State or county as the case may be by a civil action against such owner or owners.

In the case of the shipments of plants, fruits, vegetables, seeds, or agricultural products, or other articles received into the State of Arizona from outside said State conforming to the requirements of the next section and after due notice given as specified in this chapter, the inspector detailed by the commission for service at the station, depot or other point where such shipment is received, shall inspect the plants, fruits, vegetables, seed, agricultural products, or other articles as soon as possible after receiving said notice. Upon completing the inspection of a shipment, and finding it free from any insect or other pests, the inspector shall issue a certificate of release in duplicate, the original to be given the common carrier, or person or persons, bringing the shipment into the State, and the duplicate to be given to the consignee or person who receives and removes the shipment or portion thereof from the premises where inspected. A special certificate of release affecting only a portion of any shipment may be issued when said shipment is found to be infested in part, and owing to the nature of the pest found therein, agricultural and horticultural interests of the State of Arizona or of the locality where received, will not be endangered by authorizing, by means of said special certificates, the delivery and removal of certain varieties or kinds of plants, fruits, vegetables, seeds, agricultural products, or articles contained in said shipment. In the case of shipments containing insects or other pests of common occurrence in the State of Arizona, or in the locality where received, or pests which for any reason are known to be innocuous in Arizona, or in the section of the State where received, certificates of release may be issued by a horticultural inspector in accordance with specific instructions furnished said inspector by the entomologist, and such rules and restrictions as may be adopted by the commission of agriculture and horticulture. (R. S. 1913, Civil Code, § 3311.)

65. Nursery Stock.—All nursery stock shipped into Arizona from any other State or country shall be prominently labeled with the name and address of both the shipper and consignee, and shall be accompanied by a certificate of inspection dated within one year, or a copy of such certificate, by a duly authorized official of the State or country in which said stock was grown. All shipments from other States or countries into the State, consisting of or containing plants, fruits, vegetables, or seeds, which were not grown in the locality from which shipment was made, must, in addition, specify where such plants or products were grown. Shipments into the State of Arizona shall conform to any rules or regulations promulgated by said commission. (Id. § 3312.)

66. Quarantine; Regulation.—When, within the judgment of the said commission, or a majority of the members thereof, the importation from designated

countries, States, counties, districts, or localities, of specified varieties of plants, fruits, vegetables, seeds, agricultural products, or other articles, is dangerous to the agricultural or horticultural interests of Arizona because of the likelihood of infestation with crop pests or diseases, the said commission may declare quarantine against all such varieties of plants, fruits, vegetables, seeds, agricultural products, or other articles, from such designated countries, States, counties, districts, or localities; and all common carriers concerned shall be immediately notified of all declarations of quarantine, and are hereby prohibited from bringing quarantined plants, fruits, vegetables, seeds, agricultural products, or other articles from such designated places, into the State.

Any person or persons, firm, corporation, or common carrier, who shall bring, or cause to be brought into the State, any plants, fruits, vegetables, seeds, agricultural products, or other articles herein provided for, shall immediately after the arrival thereof, notify the inspector detailed by said commission to act at the depot, station or place where the same may be received, and hold the same without unnecessarily moving or placing such articles where they may be harmful, for the immediate inspection of such inspector, and shall not deliver same until furnished with a certificate of release by the said inspector. The members of said commission, the entomologist, or the inspector, are hereby authorized and empowered to enter into any warehouse, depot, or any other place, where such nursery stock, fruits, or agricultural products, or other described articles are received, for the purpose of making the investigation or examination herein provided for. (Id. § 3317.)

67. Destruction of Infested Plants; Shipment.—When any shipment of plants, fruits, vegetables, seeds, agricultural products, or other articles, imported or brought into the State is found to be infested by, or to harbor insect or other pests dangerous to the interests of the State, or a section thereof, or when any portion of such shipment is so infested or harboring any species of dangerous pests, the entomologist or inspector shall notify the shipper, consignee, or owner, and shall require the shipper, consignee or owner, immediately to reship from the State, or immediately destroy such shipment, in whole or in part as said inspector may deem necessary, at the option of the owner, owners, agent or agents, and at his or their expense. In the event that the shipper, consignee, or owner shall neglect or refuse to reship from the State, or destroy such infested shipment or portion thereof, the entomologist or inspector shall destroy, or cause to be destroyed, by fire or otherwise, such infested shipment or portion of shipment. (Id. § 3318.)

68. Sale or Transportation of Infested Plants, etc., Forbidden.—It shall be unlawful to offer for sale, sell, give away, or transport, except from the State as provided in the preceding section, any plants, fruits, vegetables, or seeds, known to be infested by dangerously injurious insects or infested with dangerously injurious plant diseases, or known to harbor any pest whatsoever, provided that in the case of apples or pears infested by the codling moth, plain evidence of injury by this insect to any such fruit or fruits shall constitute a condition of infestation, and whenever in the judgment of said commission the protection of horticultural interests of any section of the State requires such action, fruit commonly known as "wormy" together with all other apples or pears in the same package, box, barrel or lot, together with the box, boxes, barrel, barrels, or other containers, shall be declared a public nuisance and contraband by the entomologist, assistant, or any inspector, and the offering for sale, selling, giving away, or transporting of such fruit after such declaration shall be unlawful. (Id. § 3319.)

69. Alfalfa Weevil.—In order to prevent the introduction into, or the spread within, the State, of the insect pest known as the "alfalfa weevil" now existing in neighboring states, the commission of agriculture and horticulture is hereby given authority to prohibit the introduction of packages or boxes of fruit, vegetables, hay, or other farm products, or any material or articles likely to contain or harbor said pest, from any state, county, district or locality, where the said alfalfa weevil may exist. Said commission may promulgate any rules it may deem advisable restricting shipments from countries, States, or counties, districts, or localities, known to be infested by the said alfalfa weevil, into Arizona, by common carrier, or otherwise. In the event that the alfalfa weevil becomes introduced into Arizona, the commission and entomologist shall take whatever steps may be practicable to eradicate or restrict the spread of said pest. (Id. § 2.)

72. Penalty.—Any person or persons who violate any of the provisions of this act shall be deemed guilty of a misdemeanor, and on conviction thereof shall be fined not less than fifty dollars (\$50.00), nor more than one hundred dollars (\$100.00). (Id. § 3.)

73. License to Slaughter Animals.—It shall be unlawful for any person or persons, firm or corporation to slaughter, within this State, any horned or neat cattle sheep or goats for sale, barter or exchange unless he, they or it shall have a license therefor issued in accordance with the provisions of this chapter, provided that any person may slaughter during each calendar year not exceeding five head of horned, or neat cattle or twenty sheep or goats, other than range stock, the meat whereof is not disposed of or exposed for sale or other disposition in any city, town or mining camp wherein any person is licensed under the provisions of this chapter to slaughter cattle, sheep or goats for sale. (R. S. 1913, Civil Code, § 3738, as amended L. 1925, c. 31.)

74. Sale of Meat Unlawful Unless Animal Has Been Inspected.—(a) The office of county sanitary meat inspector is hereby created and established in each county of the State. On the first Monday following the date on which this act shall become effective, and thereafter, on the first Monday in January of each odd numbered year, the board of supervisors of each county is hereby authorized and directed to appoint a county sanitary meat inspector, by and with the consent and approval of the Live Stock Sanitary Board.

The salaries of such inspectors shall be as follows:

In first-class counties at the rate of three thousand dollars per annum;

In second-class counties at the rate of twenty-four hundred dollars per annum;

In all other classes of counties at the rate of eighteen hundred dollars per annum.

Each such inspector shall be entitled to receive compensation for his actual, necessary traveling expenses while engaged in the performance of the duties prescribed in this paragraph.

Each of said boards of supervisors is hereby authorized, empowered and directed to appoint such deputy county sanitary meat inspectors as in the judgment of said board shall be needed and required in carrying out the provisions of this paragraph, at salaries to be fixed respectively by said boards of supervisors.

Such inspectors shall be qualified and experienced in the business of inspection of animals and determination and detection of disease or other conditions rendering such animals unfit for human consumption.

(b) It shall be the duty of such county sanitary meat inspectors to exercise supervision over all establishments used in the business of slaughtering and preparing animals, and to inspect all animals before and after slaughtering, for food purposes in the county in and for which they, respectively, shall be appointed, in full compliance with the provisions of this paragraph and with the rules and regulations from time to time promulgated and put in force and effect by the Live Stock Sanitary Board, excepting any establishment slaughtering and preparing animals for food purposes for the sole consumption of the owner of such establishment or of his immediate family, and excepting all animals prepared for food purposes for the sole consumption of the owner thereof or of his immediate family.

Each such inspector is empowered and directed to visit at any or all times any establishment, place or premises where animals are slaughtered or prepared for food purposes, as well as all retail meat markets, meat canneries, sausage factories, curing and smoke houses and similar places, restaurants and hotels, for the purpose of determining, if any meat or meat products found therein have been inspected according to the provisions of this paragraph, the wholesomeness and healthfulness of animals slaughtered for food purposes, and meats and meat food products intended for human consumption, and the sanitary condition of buildings, drainage, sewerage, cleanliness, equipment, utensils, employees, clothing, water supply and disposal of refuse.

(c) The Live Stock Sanitary Board is authorized, empowered and directed to promulgate and put into force and effect and to enforce suitable rules and regulations necessary and requisite in its judgment to insure a healthful, wholesome and safe meat supply for the State of Arizona.

(d) Any person or persons, firm or corporation intending to slaughter any animal or animals for the sale, gift, barter or exchange of any meat or meat products thereof shall notify in writing the county sanitary meat inspector of the county in which such animal or animals will be slaughtered, of such intention, at least two full days, exclusive of the day of service of such notice and the day of slaughter of such animal or animals, prior to the commencement of the slaughtering of any thereof.

(e) It shall be unlawful for any person or persons, firm or corporation to slaughter any animal or animals for sale, gift, barter or exchange of any meat or meat products thereof unless such animal or animals, each and every thereof, before slaughter or any thereof, shall have been inspected and passed by the county sanitary meat inspector of the county in which such animal or animals are slaughtered, unless the owner thereof shall have given the notice provided in sub-paragraph (d) hereof and the county sanitary meat inspector so notified shall have failed to appear and inspect such animal or animals within the period of two full days immediately following and exclusive of the day of service of said notice.

(f) In respect to any person or persons, firm or corporation engaged in the slaughter-house business and slaughtering ten or more animals per week for sale, gift, barter or exchange of any meat or meat products thereof, upon the written application of any such person or persons, firm or corporation, it shall be the duty of the proper county sanitary meat inspector to establish and pre-determine regular slaughter days and slaughter hours, as far as possible to meet the convenience of such slaughter business and the regular and proper discharge of the duties of such county sanitary meat inspector, in which case the provisions of sub-paragraph (d) and (e) hereof shall not apply; and in each such case it shall be the duty of such county sanitary meat inspector to be present and perform the duties comprehended within the provisions of this paragraph at the days and hours so pre-determined by such inspector.

(g) At each inspection of an animal or animals for slaughter for the purposes comprehended in this paragraph, such inspector shall determine and make a record in triplicate of the sex, age, and brand, if any, of such animal or animals, the fitness of the meat or meat products of such animal or animals for human consumption, and in case the person, persons, firm or corporation slaughtering such animal or animals is not the record owner of the holding brand of such animal or animals, then the person, persons, firm or corporation from whom, and the manner by which, such person, persons, firm or corporation so slaughtering such animal or animals, shall have acquired the same.

The original of said record shall be transmitted to and filed with the Live Stock Sanitary Board; the duplicate of said record shall be transmitted to and filed with the county assessor of the county in which such animal or animals were slaughtered; the triplicate of said record shall be retained as the official record in the office of said county sanitary meat inspector.

If such inspector find such animal or animals in such condition that the meat or meat products thereof are fit for human consumption, as defined by the rules and regulations of the Live Stock Sanitary Board, and there shall be exhibited to him a valid and subsisting license for the slaughter of such animal or animals issued pursuant to the provisions of this chapter, he shall pass the same for slaughter, and it or they shall be slaughtered in his presence. Immediately following the slaughter of such animal or animals such inspector shall be permitted to and shall make such inspection of the carcass and parts thereof as he shall deem necessary and required, and if he determine thereupon that the meat or meat products thereof are fit for human consumption, he shall stamp thereon his official stamp containing the inscription: "Ariz. Inspected and Passed," in such manner and upon such parts of said carcass as may be prescribed from time to time by the rules and regulations of said Live Stock Sanitary Board. If in such examination such inspector shall determine that such animal or animals, or the meat or meat products thereof, are unfit for human consumption, as may be defined in the rules and regulations of the Live Stock Sanitary Board, he shall order, direct and effect such disposition of the said animal or animals, or meat or meat products thereof, as shall from time to time be provided by said rules and regulations of said Live Stock Sanitary Board; provided, that in every event, such animal or animals, the meat or meat products thereof, shall be so disposed of, treated or made use of as to make impossible the employment of any part thereof as human food.

(h) It shall be unlawful for any person or persons, firm or corporation to sell, give away, barter or exchange, or offer or expose for sale, gift, barter or exchange, or have in his, its or their possession, any meat of any cattle, sheep, goats or swine, and it shall be unlawful for any such person or persons, firm or corporation to purchase for re-sale or for any other purpose, any meat of cattle, sheep, goats or swine, unless the carcass or a part thereof of such animal from which such meat is cut shall have been inspected as provided in this paragraph and shall have stamped thereon the official inspection stamp provided in sub-paragraph (g) hereof and as may be further required or provided by the rules and regulations of the Live Stock Sanitary Board not inconsistent therewith; and the meat in respect to which any act or omission to act, shall have been done or performed, or omitted to be done or performed, unlawfully under the provisions of this paragraph, shall be seized, confiscated and destroyed by any such inspector or peace officer of the State or of any county or political subdivision thereof.

(i) The board of supervisors of each county in the State shall have authority, and is hereby directed by its ordinance, to establish within limits at its discretion, fees for each inspection of each animal, provided for by the terms of this paragraph, to be paid by the owner of the animal or animals, or of the premises inspected, at the time of each such inspection and to the inspector making such inspection, by him to be remitted to the county treasurer of the county in which such inspection has been made for the credit of the general county fund.

(j) It shall be unlawful for any person, firm or corporation, except any such duly appointed qualified and acting county sanitary meat inspector, or his employees, to have in his or its possession, keep or use any mark, stamp or brand provided or used in marking, stamping or branding the carcass of any animal intended for food purposes, parts thereof, meat or meat food products, or to have in his or its possession, keep or use any mark, stamp or brand, having thereon a device or words the same or similar in character or import to the marks, stamps or brands provided or used by any such county sanitary meat inspector, as provided or authorized by this paragraph or as may from time to time be authorized or provided for by the rules and regulations of said Live Stock Sanitary Board, or to place or affix any spurious, unauthorized or counterfeit stamp or brand upon the carcass of any animal intended for food purposes, parts thereof, meat or meat products, or to have in his or its possession any carcass of any animal intended for food purposes, parts thereof, meat or meat products, on which there shall have been stamped and in evidence any such spurious, unauthorized or counterfeit stamp or brand.

(k) The Live Stock Sanitary Board shall from time to time provide rules and regulations necessary for the efficient execution of the provisions of this

act and shall prescribe the form of all reports and data to be kept permanently, required by the provisions of this paragraph or by the rules and regulations of said Live Stock Sanitary Board, and all inspections and examinations made under this paragraph shall be made in such manner as prescribed therein and in rules and regulations from time to time provided by said Live Stock Sanitary Board not inconsistent with the provisions of this paragraph; provided, however, that in such rules and regulations said Live Stock Sanitary Board shall be guided by the rules and regulations governing meat inspection by the United States Department of Agriculture.

(1) It shall be unlawful for any person, firm or corporation to maintain, or operate, a slaughtering house or place for the sale of meat or meat products which is unclean or unsanitary.

(m) Any person, firm or corporation who or which shall violate any of the provisions of this paragraph, or shall do or perform, or cause to be done or performed, any act therein declared unlawful, or declared unlawful by the rules or regulations promulgated by the Live Stock Sanitary Board for the enforcement of the provisions of this paragraph, shall be guilty of a misdemeanor, and upon conviction thereof shall be punishable by imprisonment in the county jail not exceeding six months or by fine not exceeding three hundred dollars, or by both. (Id. § 3739.)

75. Slaughterhouses.—Every person or persons, firm, association or corporation licensed to engage in the slaughter of live stock for sale in this State, shall slaughter all such animals in a fixed and definite slaughterhouse or slaughter pen, to be kept in compliance with such conditions as are prescribed by the Live Stock Sanitary Board for that purpose, or in the slaughterhouse established by the authorities of an incorporated city or town; and before such person, persons, firm, association or corporation shall begin, enter upon or carry on the business of slaughtering any horned or neat cattle, sheep or goats for sale or for the sale of meat, or selling or exposing for sale the meat of such animals in the State of Arizona, such person, persons, firm, association or corporation shall first procure from the Live Stock Sanitary Board a license to carry on such slaughtering business, and to sell or expose for sale such meat, under the conditions and upon the payment of the fees herein provided. After procuring such license, and before engaging in such business, such person or persons shall execute upon a blank form furnished by the board, a bond with two or more good and sufficient sureties, to the State of Arizona, in the penal sum of one thousand dollars, to be approved by the chairman of the board, conditioned that such person, persons, firm, association or corporation shall not slaughter, sell or expose for sale any meat animal or the meat thereof, without first being the legal and equitable owner thereof as well in law as in fact. In case such person, persons, firm, association or corporation shall slaughter or sell, or expose for sale, any neat cattle or the meat thereof in violation of the terms and conditions of such bond, they shall pay therefor double the value of any such animal, the same to be recovered by action on said bond in the name of the true owner of such animal. The amount so recovered shall be paid as follows: One-half to the owner of such animal, one-fourth to the inspector or person discovering the wrongful possession or slaughtering of such animal, and the remaining one-fourth to the Live Stock Sanitary Board to be turned over to the General Fund; and upon the condition that they shall comply with all the provisions of this chapter relating to that business. (Id. § 3740.)

76. License Fees.—The Live Stock Sanitary Board shall grant to each and every applicant therefor, on the payment of the fees herein provided, a license to slaughter cattle, sheep and goats, as may be set forth in such license so granted. If such slaughter business is to be carried on within, or within four miles of the corporate limits of, any town of more than five thousand inhabitants, the applicant shall pay to such board the sum of one hundred fifty dollars for such license. If such slaughtering business is to be carried on within, or within four miles of, the corporate limits of any town of three thousand or more and less than five thousand inhabitants, the applicant shall pay to such board the sum of one hundred twenty dollars for such license. If such slaughtering business is to be carried on within, or within four miles of, the corporate limits of any town of one thousand or more and less than three thousand inhabitants, the applicant shall pay to such board the sum of ninety dollars for such license. In all other cases an applicant shall pay thirty dollars for each such slaughtering license. No license shall be issued for a less fee than is herein prescribed, and there shall be designated in and by the terms of each such license the pre-determined fixed and definite place where the slaughtering authorized by each such license is to be done.

The record owner of any registered brand of any cattle, sheep or goats, may apply to and shall be entitled to receive without cost or charge from said board a special license to slaughter out of any such brand so owned and of record, cattle, sheep or goats for food purposes and the consumption only by each owner, his immediate family, herders or employees engaged in the employment of such owner in running and operating such cattle, sheep or goats in such brands.

All licenses issued under the foregoing provisions of this paragraph shall expire on December thirty-first of the year in which issued.

Any person who shall slaughter any animal of the kinds mentioned in this act without first procuring a license as provided in this paragraph, shall be punished by a fine of not more than three hundred dollars or by imprisonment in the county jail for not more than six months, or by both such fine and imprisonment, in the discretion of the court. The possession of the carcass, or any portion of the meat of any such animal mentioned herein, shall be prima facie evidence of a violation of this paragraph, unless the person in whose possession such carcass or meat is found shall be able to show that the animal of which it is the whole, or part, was actually slaughtered under the authority of a license issued under the provisions of this paragraph. (Id. § 3741.)

77. Application for and Transfer of License.—The applicant for such license shall make written application to the board therefor, and state in his application where his slaughterhouse is or will be located during the term for which such license is issued, and he shall not, during the term of such license, slaughter any neat or horned cattle, swine, sheep or goats at any other place than that specified in his license. Provided, that if for any reason the holder of a license desires to change the location of such slaughtering place, he shall apply to the said board to have such license transferred to cover such change. And such board may reissue such license on application therefor without any additional charge for the unexpired term of such license. (R. S. 1913, Civil Code, § 3742.)

78. Slaughtering by Producers.—Producers who kill or slaughter animals for the sole purpose of using the meat thereof for food for themselves, their immediate family and employees, shall not be required to have such animals inspected before killing, but all animals to be slaughtered by the producer thereof, the meat of which is to be sold, shall be inspected as in this chapter provided, before the killing of same. The term "producers" within the meaning of this and succeeding paragraphs, shall be taken to include the owners of herds and the proprietors, tenants and the occupants of lands and premises whereon any of the animals mentioned in this section are raised or prepared for market. Provided, that the hide of every animal of kind mentioned in this act, and slaughtered under permission of this paragraph, shall be hung up in a conspicuous place on premises where animal is slaughtered, and remain there until such hide is inspected and tagged. (Id. § 3743, as amended L. 1921, c. 97.)

79. Sale of Uninspected Meats Prohibited.—Any person, firm or corporation who shall import or bring into the State of Arizona, the meat of any domestic animal for sale for food, or who shall offer for sale the meat of any domestic animal, whether fresh, salt or dried, that has not been slaughtered under the provisions of this chapter, or has not passed the inspection of a United States Government meat inspector, shall be subject to the same license fees, regulations and penalties as are prescribed for persons slaughtering animals for the sale of meat in the State of Arizona. (R. S. 1913, Civil Code, § 3744.)

79a. Producer to Cause Animals to be Inspected.—Before any producer shall slaughter any domestic animal intended for sale for food, he shall, at least five days before he intends to slaughter any such animal, give written notice thereof to an inspector of the Live Stock Sanitary Board. Such notice shall describe the animal, or animals, intended to be killed; the name of the owner, or owners, thereof; the brands and marks thereon, and the age and sex of such animals, and in such notice shall specify and describe the location of the place where it is intended to slaughter the animals described in such notice. It shall be the duty of such live stock inspector to inspect the animals mentioned in this notice, or he may designate two persons who shall be disinterested land owners and who are in no way related to the person intending to slaughter such animals. If disinterested persons are named to make inspection of such animals, then upon notice, they shall proceed to do so and report the result of such inspection to the inspector appointing them, and shall also transmit a duplicate report of their inspection to the Live Stock Sanitary Board at Phoenix, Arizona. No such disinterested persons specially appointed by such sanitary inspector to inspect, shall have any continued authority to make inspections, but a specific appointment shall be made in each case, where an

inspection is required, under a notice given by the producer who intends to slaughter animals for sale. (Id. § 3746, as amended L. 1921, c. 97, § 3.)

79b. Manner of Inspection and Statement of Same.—The inspector or inspectors shall examine, by daylight, the animal to be slaughtered, and shall make and sign a statement showing when and where the examination is made, the name of the owner, and the character of the animal, giving a full description of it, including color and brand, if any brand; and if it is well, sound, and fit for food, they shall so State; and the owner, within ten days after such inspection, shall deposit such statement with the county recorder of the county wherein such inspection is made and shall preserve the hide of such animal for inspection as provided by law. The recorder shall be entitled to no fee, but shall preserve such statement for public inspection for a period of six months. (R. S. 1913, Civil Code, § 3747.)

80. Producer Not to Slaughter Without Inspection and Filing Statement.—If any producer shall slaughter for food any domestic animal, or sell or offer for sale any such slaughtered animal or any part thereof, that has not been inspected and found to be well, sound, and fit for food, or shall fail to deposit the statement made by the inspector or inspectors, or fail to keep the hide of any animal slaughtered by him, for inspection as provided by law, he shall be deemed guilty of a misdemeanor and shall be punished by a fine not exceeding one thousand dollars, or by imprisonment for a term not exceeding six months, or by both such fine and imprisonment. (Id. § 3748.)

81. No License to be Required of Producer.—Except as in this act provided, no other tax, license or other burden or fee shall be imposed, levied, demanded or collected from any producers herein defined, because of any sale or sales of any such products; nor shall any penalty or punishment be imposed upon him on account of such sale, except for a violation of the terms of this act; nor shall any town or city in this State impose by municipal ordinance, under any guise, any tax, fee or penalty, save and except that all such products shall, in common with similar products offered for sale, by persons who are not the producers thereof, be subject to inspection; no municipal ordinance providing for such inspection shall be valid unless it applies in precisely the same manner and upon precisely the same terms to others offering similar products for sale.

(a) No person, whether a producer or not, shall sell or peddle the meat of any animal mentioned in this act unless he shall have the full hide of that animal in his possession at all times while so selling or peddling the meat. Every person selling or peddling the meat of such animal shall exhibit the hide thereof to any inspector or other officer of the Live Stock Sanitary Board, and do so immediately upon demand of any such inspector or officer. Any person failing to do either of the things above provided, respecting the hide of animals, whose meat is offered for sale, shall be guilty of a misdemeanor, and upon conviction thereof be punished by a fine not exceeding three hundred (\$300.00) dollars, or by imprisonment in the county jail not exceeding three months, or by both such fine and imprisonment.

(b) The possession by any person of any carcass, or any edible part thereof, of any cattle, sheep or goat slaughtered otherwise than in compliance with the provisions of this chapter, shall be taken and deemed to be an unlawful possession, and for the purpose of enforcing the provisions of this chapter each and every officer hereinafter specified shall be, and is hereby given the authority to make the inquiry and investigation as hereinafter provided, and any person or persons having in their possession the carcass, or any edible part thereof, of any neat cattle, sheep or goats, shall, upon the demand of any sheriff, deputy sheriff, constable or inspector of the Live Stock Sanitary Board of Arizona, state to such officer where and the name of the person from whom such meat was obtained. If the person in possession then claims to have slaughtered the animal from which said meat was taken, he shall upon request then exhibit to such officer the whole hide of such animal slaughtered; if in answer to inquiries of officer, the person then claims that such meat was procured from another person, then, upon demand made upon that person by any of the aforesaid officers, that person shall forthwith exhibit the whole hide of such animal slaughtered and from which meat was taken.

Any person who, upon demand of the proper officer, refuses to give the information herein required to be given, or who shall give false information as to such matters inquired into, or who fails or refuses to exhibit the hide, when the animal has been slaughtered by him, or at his direction, shall be prima facie guilty of having slaughtered the animal from which such meat was obtained, in violation of the provisions of this act as to the inspection and slaughtering of animals mentioned in this act; and upon a trial upon a complaint made that said animal was either slaughtered without inspection, or complaint that animal was not slaughtered under a license permitting a slaughter for sale of animal meat mentioned; or other complaint of

violation of the provisions of this act as to licenses, inspection or selling of meat, or either, made against any person in possession of any animal meat of kind above mentioned, proof that the party so charged refused, upon demand of the proper officer, to give the information demanded of him as above provided or that he gave to such officer false information relating thereto, or failed or refused to exhibit the hide, as the case may be, shall be prima facie evidence that such person is guilty of the act charged or was an accessory thereto and upon conviction either as a principal or accessory to such misdemeanor charged, such defendant or defendants shall be punished by a fine of not less than fifty (\$50.00) dollars nor more than three hundred (\$300.00) dollars, or by imprisonment in the county jail for a term of not less than thirty days nor more than six months, or by both such fine and imprisonment. (Id. § 3749, as amended L. 1921, c. 97.)

82. Inspection of Animals at Slaughterhouse.—It shall be the duty of any person carrying on the business of slaughtering such animals, to notify the nearest inspector of the location of his slaughterhouse or slaughter pen, and of the time when it is proposed to slaughter any such animals, and no animal shall be slaughtered until it shall have been inspected and certified to by the inspector as being the property of the person slaughtering it or causing it to be slaughtered, or that he is authorized to slaughter it. The board shall prepare these certificates in blank, and the inspector shall keep a copy of each certificate issued in a book which shall be open at all times to public inspection and examination. When such animal, so inspected and certified to, has been slaughtered, the inspector shall inspect the hide of such animal, and shall tag the same, on the left side of the neck with a tag seal to be furnished by the board. For each animal and hide so inspected the butcher shall pay the inspector, at the time the hide is inspected and before it is tagged, the sum of ten cents, which shall be full payment for inspecting the live animal, and inspecting and tagging the hide. (R. S. 1913, Civil Code, § 3750.)

83. Record of Inspection, Penal Section.—A duplicate record of all inspections shall be sent to the board, and a triplicate given to the butcher at such times and under such rules and regulations as the board may adopt. Any person, persons, firm, or corporation selling, removing or secreting any hide or hides, or detaching, obliterating or defacing from or upon the hide any mark or brand before they are inspected and tagged, shall be guilty of a misdemeanor. (Id. § 3751.)

84. Record of Animals Slaughtered.—Every person, firm, association or corporation, who or which shall carry on the business of butchering or slaughtering cattle, sheep, goats or swine in this State shall keep a true and faithful record, in a book to be kept for that purpose, of all live stock purchased or slaughtered by him or it, with a description of all animals so purchased or slaughtered, including all the marks and brands of such animals, the name and residence of the person from whom purchased and the date of such purchase. Every such person, firm, association or corporation who fails to keep such record, or who makes any false entry in such record, or who refuses to exhibit, to any person demanding it, the said record, shall be guilty of a misdemeanor, and upon conviction shall be fined in a sum not less than ten nor more than one hundred dollars for every day he shall have failed to keep such record or for every day he shall have failed or refused so to exhibit such record or for each false entry made in such record. (Id. § 3753, as amended L. 1925, c. 31.)

The State Inspector shall forthwith on his appointment give a bond in the penal sum of five thousand dollars with sureties to be approved by the Governor for the faithful performance of the duties of his office, and for the safety of the standards entrusted to his care and for the surrender thereof immediately to his successor in office or to the person appointed by the Governor to receive them. (Id. § 5512.)

147. If the meter tested shall, upon test thereof, by the inspector, be found to measure too fast or too slow by as much as three per centum, such meter shall be condemned by him and shall not be again used or used at all until corrected and made to measure accurately. Unless any water, gas or electric meter is made to conform with the standard of such State Inspector within thirty days after the date of the condemnation by such inspector, the said State Inspector is not required to retest such condemned water, gas, or electric meter for a period of one year thereafter.

The State Inspector shall keep in a book, together with a card index system to be furnished him by the State a complete list of all meters inspected and tested by him, the name of the person, firm, or corporation owning the same, the name of the furnisher of the water, gas, or electricity, the name of the consumer thereof, and the date and result of all inspections, and shall at all times keep the same open to the inspection of the public. 148. Same (continued).—He shall, upon the written request of any citizen, firm or corporation, or educational institution in the State, test any water, gas or electric meters, used as standards in the State. Where not otherwise provided by law, the city sealer shall have the power within his city to inspect, test, try, and ascertain if they are correct, all weights, scales, beams, measures of every kind, instruments or mechanical devices for weighing and measuring, and tools, appliances, or accessories, connected with all such instruments and measures, kept, offered or exposed for sale, sold, used, or employed, within the city by any proprietor, agent, lessee, or employee, in having the size, quantity, extent, area or measurements, of quantities, things, produce, or articles for distribution or consumption, offered or submitted by such person or persons for sale, hire, or reward; he shall have the power to and shall from time to time, weigh or measure packages or amounts of commodities of whatsoever kind kept for the purpose of sale, or sold, or in the process of delivery in order to determine whether the same contains the amounts represented, and whether they be offered for sale or sold, in a manner in accordance with law. He shall at least twice each year, and as much oftener as he deems necessary, test the accuracy of weights, measures, and weighing or measuring devices, used in such city. He may for the purpose above mentioned and in the general performance of his duties, enter and go into or upon, without formal warrant, any stand, place, building or premises, or stop any vendor, peddler, junk dealer, coal wagon, ice wagon, delivery wagon, or any dealer whatsoever, and require him if necessary, to proceed to some convenient place for the purpose of making the proper test. When the city sealer finds a violation of the statutes relating to weights and measures, he shall cause the violator to be prosecuted. When the sealer compares weights or measures, or weighing or measuring instruments, and finds that they correspond with the standards in his possession, he shall seal or mark such weights, measures, or weighing or measuring instruments, with appropriate devices, to be approved by the State Inspector of Weights and Measures. He shall condemn and seize, and may destroy, incorrect weights and measures, or weighing or measuring instruments, which in his best judgment are not susceptible of satisfactory repairs; but such as are incorrect and yet may be repaired, he shall mark or tag as "condemned for repairs," in the manner prescribed by the State Inspector. The owner or users of any weights or measuring instruments, and finds that they correspond with the standards in made, shall have the same repaired or corrected within fifteen days, and they may neither use nor dispose of the same in any way, but shall hold same at the disposal

of the sealer, and any apparatus which has been "condemned for repairs," and has not been repaired as required above, shall be confiscated by the sealer.

The city sealer shall keep in a book, together with a card index system to be furnished him by the common council, a complete list of all scales, or weights, or weighing or measures devices, inspected and tested by him, the name of the person, firm, or corporation, using such scales, weights, or weighing or measuring devices, and the date and result of all inspections, and shall at all times keep the same open to the inspection of the public.

The city sealer of weights and measures shall forthwith on his appointment give a bond in the penal sum of one thousand dollars, with sureties to be approved by the appointing power, for the faithful performance of the duties of his office.

Provided, however, that nothing in the above shall be construed to prevent two or more cities from combining the whole or any part of their districts as may be agreed upon by the common councils of such cities, with one set of standards and one sealer, upon the written consent of said State Inspector. A city sealer appointed in pursuance of an agreement for such combination shall, subject to the terms of his appointment, have the same authority, jurisdiction, and duties as if he had been appointed by each of the authorities who are parties to the agreement.

For inspecting, testing, and sealing, weights, and measures, the city sealer shall charge, and collect from the person, owning or using such weight or measure, the following fees:

Provided, however, that where any weight or weights, measure or measures, scale or scales, balance or balances, scale beam or scale beams, steelyard or steelyards, or any other instrument or device for weighing or measuring, used by or belonging to any person, firm, or corporation, shall be tested by said sealer oftener than twice per year, no fee or fees shall be charged or collected for more than the two inspections per year, except in case such instrument or device be found upon such subsequent testing to be false and incorrect, whereupon the regular fee shall be collected and paid.

The sealer shall keep an itemized list of all fees collected by him in pursuance of this title, and at the end of each month he shall turn said fees and said itemized list over to the city treasurer and take his receipt therefor. (Id. § 5516.)

(Stats., 1921, § 4817.)

2. (Id. § 4818.)

3. Examination of Specimens.—The examination of specimens of foods and drugs shall be made by the State Commissioner of Health, or under the direction and supervision of such commissioner, for the purpose of determining from such examination whether such articles are adulterated or misbranded within the meaning of this act; and if it shall appear from any such examination that any of such specimens are adulterated or misbranded within the meaning of this act, the Commissioner of Mines, Manufactures and Agriculture shall cause notice thereof to be given to the party from whom such sample was obtained. (Id. § 4819.)

4. Hearing Before Commissioner.—Any party so notified shall be given an opportunity to be heard, under such rules and regulations as may be prescribed as aforesaid, and if it appears that any of the provisions of this act have been violated by such party, then the Commissioner of Mines, Manufactures and Agriculture shall at once certify the facts to the proper prosecuting attorney, with a copy of the results of the analysis or the examination of such articles, duly authenticated by the analyst or officer making such examination under the oath of such office. After judgment of the court, notice shall be given by publication in such a manner as may be prescribed by the rules and regulations aforesaid. (Id. § 4820.)

5. Duty of Prosecuting Attorneys.—It shall be the duty of each prosecuting attorney to whom the Commissioner of Mines, Manufactures and Agriculture shall report the violation of this act, or to whom any health or food or drug officer or agent of any county shall present satisfactory evidence of any such violation, to cause appropriate proceedings to be commenced and prosecuted in the proper courts of the State, without delay, for the enforcement of the penalties as in such cases herein provided. (Id. § 4821.)

6. The term "food" as used herein shall include all articles used for food, drinks, confectionery or condiment by man or other animal, whether simple, mixed or compound. (Id. § 4822.)

7. Adulteration and Misbranding Defined.—For the purpose of this act an article shall be deemed to be adulterated:

*CITATIONS: "Stats. 1921" refers to the Crawford and Moses Digest of the Statutes of Arkansas, 1921, published by authority of the General Assembly (Act of March 17, 1919). "L." refers to the session laws of the year cited.

In case of drugs. First. If, when a drug is sold under or by a name recognized in the United States Pharmacopœia or National Formulary, it differs from the standard of strength, quality or purity, as determined by the test laid down in the United States Pharmacopœia or National Formulary, official at the time, shall be deemed to be adulterated under these provisions if the standard of strength, quality or purity be plainly stated upon the bottle, box or other container therefor, although the standard may differ from that determined by the test laid down in the United States Pharmacopœia or National Formulary, official at the time. Second. If its strength or purity fall below the professed standard or quality under which it is sold.

In the case of confectionery. If it contains terra alba, barytes, talc, chrome yellow or other mineral substance or poisonous color or flavor, or other ingredient deleterious or detrimental to health, or any vinous, malt or spirituous liquor or compound or narcotic drug.

In the case of food. First. If any substance has been mixed and packed with it so as to reduce or lower or injuriously affect its quality or strength. Second. If any substance has been substituted wholly or in part for the article. Third. If any valuable constituent of the article has been wholly or in part abstracted. Fourth. If it is mixed, colored, powdered, coated or stained in a manner whereby damage or inferiority is concealed, *provided that burned sugar or any other coloring matter whatever, including saccharine, used in the manufacture of vinegar and cider, shall be deemed an adulteration. Vinegars made from materials especially chosen to impart a color and taste similar to that of cider vinegar are held to be an imitation of cider vinegar, unless each package, wholesale and retail, as delivered to the purchaser, is distinctly marked by a label which states the true nature of the article. Fifth. If it contains any added poisonous or other added deleterious ingredient which may render such article injurious to health. Sixth. If it consists in whole or in part of a filthy, decomposed or putrid animal or vegetable substance, or any portion of any animal unfit for food, whether manufactured or not, or if it is the product of a diseased animal, or one that has died otherwise than by slaughter.

For the purpose of this act, an article shall also be deemed to be misbranded:

In case of drugs. First. If it be an imitation of or offered for sale under the name of another article. Second. If the contents of the package as originally put [up] shall have been removed, in whole or in part, [and] other contents shall have been placed in such package, or if the package failed [fails] to bear a statement on the label of the quantity or proportion of any alcohol, morphine, opium, cocaine, heroin, alpha or beta eucaïne, chloroform, cannabis indica, chloral hydrate, or acetanilid, or any derivative or preparation of any such substance contained therein. Provided, however, that nothing in this paragraph shall be construed to apply to the dispensing of prescriptions written by regularly licensed practicing physicians, veterinary surgeons and dentists, and kept on file by the dispensing pharmacist, nor to such drugs as are recognized in the United States Pharmacopœia and the National Formulary, and which are sold under the name by which they are recognized.

In the case of food. First. If it be an imitation of, or offered for sale under the distinctive name of another article. Second. If it be labeled or branded so as to deceive or mislead the purchaser, or purport to be a foreign product when not so, or if the contents of the package as originally put up shall have been removed in whole or in part, and other contents shall have been placed in such package, or if it fail to bear a statement on the label of the quantity or proportion of any morphine, opium, cocaine, heroin, alpha or beta eucaïne, chloroform, cannabis indica, chloral hydrate or acetanilid or any derivative or preparation of any such substance contained therein.†

Third. If any in package form, and the contents are stated in terms of weight or measure, they are not plainly and correctly stated on the outside of the package. Fourth. If the package containing it or its label shall bear any statement, design or device regarding the ingredients or the substance contained therein, which statement, design or device shall be false or misleading in any particular: Provided, that any

†The second subdivision relating to misbranding of food is obviously a clerical misprision. The error is carried forward in the printed volume of the Acts of 1907. Second. If [in] the case of articles labeled, branded or tagged so as to plainly indicate that they are compounds, imitations or blends, and the word "compound," "imitation" or "blend," as the case may be, is plainly stated on the package in which it is offered for sale; provided, that the term "blend" as used herein shall be construed to mean a mixture of like substances, not excluding harmless coloring or flavoring ingredients used for the purpose of coloring or flavoring only; and provided, further, that nothing in this act shall be construed as requiring or compelling proprietors or manufacturers of proprietary foods or medicines, which contain no unwholesome added ingredients to disclose their trade formula, except insofar as the provisions of this act may require to secure freedom from adulteration or misbranding. (Id. § 4823.)

8. When Dealers Not Prosecuted.—No dealer shall be prosecuted under the provisions of this act when he can establish a guaranty signed by the wholesaler, jobber, manufacturer or other party residing in the State, from whom he purchases such articles, to the effect that the same is not adulterated or misbranded within the meaning of this act designating it. (Id. § 4824.)

50. Standard Grades.—The following standard grades and standard box are hereby established for apples, packed, shipped, delivered for shipment, offered for sale or sold, in the State of California.

(a) The "extra fancy" grade shall consist of well-grown, properly matured apples of one variety; hand picked, well colored and normally shaped for the locality where produced, uniform in size, well packed, in clean standard boxes, and shall be free from insect pests, diseases, visible rot, visible dry rot, visible Baldwin spot, insect bites, bruises, skin punctures, skin broken at stem and other defects, except such bruises as are necessarily caused in the operation of packing, and virtually free from dirt; provided, however, that russetting confined within the basin of the stem shall be permitted and that a variation from the said standard as to insect pests, diseases, dry rot, Baldwin spot, insect bites, bruises and other defects shall be allowed not to exceed ten per cent total thereof, in any one package, and not to exceed five per cent of any one thereof, in any one package; provided, further, that a variation in the size of the apples contained in one box shall be allowed as follows: in boxes containing one hundred twenty-five apples, or less, a variation of one-half inch when measured through the widest portion of the cross section thereof; in boxes containing one hundred thirty-eight apples, or more, a variation of three-eighths of one inch when so measured.

(b) The "fancy" grade shall consist of well-grown, properly matured apples of one variety, hand picked, normally shaped for the locality where produced, well packed in containers which shall be virtually clean, uniform in size, and shall be free from insect pests, diseases, visible rot, visible dry rot, visible Baldwin spots, insect bites, skin punctures, skin broken at stem, bruises and other defects, (except such bruises as are necessarily caused in the operation of packing), and virtually free from dirt; provided, that smooth caterpillar bites, which on any one apple and in the aggregate shall not exceed one-half of one inch in diameter, slight limb rubs, and not to exceed two healed-over case-bearer or aphid stings on each apple, slight sunspots and slight flyspeck fungus, and scab spots which on any one apple and in the aggregate shall not exceed one-fourth of one inch in diameter, russetting which is not excessively rough, and which does not appear on more than twenty-five per cent of the surface of any one apple in the aggregate shall be permitted in this grade; provided, further, that when the apples contained in any box are packed in tiers and the size thereof is indicated upon the box by the use of tier markings, a variation in the size of the apples in such package shall be allowed not to exceed one-half of one inch when measured through the widest portion of the cross-section thereof, but when such tier markings are not used but in lieu thereof the number of apples contained in the box is given, a variation in the size of the apples in such package shall be allowed as follows: In boxes containing one hundred twenty-five apples, or less, a variation of one-half inch when measured through the widest portion of the cross-section thereof; in boxes containing one hundred thirty-eight apples, or more, a variation of three-eighths of one inch when so measured; and provided, further, that a variation from said standard as to the pests, diseases and defects above mentioned as forbidden, shall be permitted, not to exceed ten per cent total thereof, nor to exceed five per cent of any one thereof, in any one package; and provided, further, that apples slightly soiled and/or slightly dirty shall be permitted in this grade.

(c) The "C" grade shall consist of properly matured apples of one variety, hand picked, well packed, uniform in size, free from insect pests, visible rot, visible dry rot, visible Baldwin spots, and other diseases, and from broken skin, sun scald, and frost bite, more than skin deep; provided, that scab spots on any one apple not larger than one-half of one inch in diameter in the aggregate, and apples showing blossom end cracks, shall be permitted in this grade; provided, further, that a variation from said standard as to such insect pests, dry rot, Baldwin spots, diseases and defects, shall be allowed not to exceed ten per cent total thereof in any one package, nor to exceed five per cent of any

one thereof; and provided, further, that a variation in the size of the apples in each package shall be allowed not to exceed one-half of one inch when measured through the widest portion of the cross-section thereof.

(d) The standard container shall be a box of the following dimensions, inside measurements, when measured without distention of parts: Depth of end ten and one-half inches; width of end eleven and one-half inches; length of box eighteen inches, and having a cubical content of as nearly as possible two thousand one hundred seventy-three and one-half cubic inches.

(e) All packed apples, when shipped, offered for sale or sold, shall be placed in the standard box herein described; provided, however, that other size containers may be used (except where the words "extra fancy" are used as the grade designation) if conspicuously marked in letters not less than one-half inch high "irregular container." (Supp. 1925, G. L., Act 2800, § 2.)

51. Statement on Container.—Every packed container of apples shipped, delivered for shipment, offered for sale or sold, in the State of California, shall bear upon the outside thereof, and on the end, in plain words or figures and in the English language, the following: The grade of the apples therein contained, as herein defined; the designation of grade, when the stamps hereinafter provided for are not used, being stated in letters not smaller than thirty-six point type, that is, not less than one-half inch in height; the number of apples contained in the package, or the minimum net weight of the apples contained therein, or the cubical contents of the package; the variety of the apples contained in the package, unless the variety be unknown to the packer, in which case the variety shall be stated as unknown; the name and business address of the person, firm, company, organization or corporation, who first packed or caused the same to be packed, and if repacked, the name and business address of the person, firm, company, organization or corporation who repacked the same or caused same to be repacked; the date when such apples were first packed, or if repacked, the date of repacking, and on each container of apples which have been held in cold storage for more than thirty days after being packed a statement showing the fact that the contents have been held in cold storage; provided, however, that a variation of five apples, more or less, than the number stated, shall be allowed.

(a) The term "packed," whenever used in this act, shall be construed to mean the regular, compact arrangement of all or a part of the fruit in any container; the term "well packed," whenever used in this act, shall be construed to mean the regular, compact arrangement of all of the fruit in any container, the fruit being compacted with sufficient solidity so that it will not move in the container when lidded, the top and the bottom of the box, when lidded, having a bulge of not less than one-half inch and not more than one and one-half inches, and, where wrappers are used, all of the apples in the box being wrapped, with the exception of the bottom layer, which may be "flagged." The term "flagged" shall be construed to mean the incomplete covering of the apples by the use of wrappers which are not closed.

(b) The term "three and one-half tier," "four tier," "four and one-half tier" and "five tier," whenever used as the designation of the size of apples sold or offered for sale, shall have the following meanings, respectively, to wit:

The term "three and one-half tier" shall mean an apple in size three inches or larger when measured through the widest cross-section thereof; the term "four tier" shall mean an apple larger in size than two and five-eighths inches and not larger than three and one-eighth inches, when so measured; the term "four and one-half tier" shall mean an apple not smaller in size than two and one-fourth inches nor larger than two and three-fourths inches, when so measured; the term "five tier" shall mean an apple not smaller in size than one and seven-eighths inches nor larger than two and one-fourth inches, when so measured.

(c) The term "cross-section," whenever used in this act, shall mean the section of an apple taken at a right angle to a straight line drawn from the stem end to the blossom end thereof.

(d) When the size of the apples in any container shall be designated by the terms "three and one-half tier," "four tier," "four and one-half tier," or "five tier," at least ninety-five per cent of the apples in each such container shall conform to the definition of the tier marking used, as herein defined, and no apples in the container shall be smaller than the size next smaller, as herein defined.

(e) The term "properly matured," as used in this act, shall be deemed to mean that the apples to which it refers, at the time they were taken or fell from the tree, had reached that stage of development necessary to insure the proper completion of the ripening process; provided, however, that unclassified apples of any variety shall not be required to be properly matured. (Id. § 3.)

52. Apples to Conform to Standard.—No person, firm, company, organization or corporation shall sell or offer for sale, within the State of California, any apples labeled, designated, invoiced or represented to be, of "Extra fancy," "Fancy" or "C" grade, whether contained in closed packages or otherwise, unless the same shall conform to the standard for such grade herein established. (G. L. 1923, Act 2800, § 4.)

53. Sale or Use of Infected Apples.—Except as in this act expressly permitted, no person, firm, company, organization or corporation shall import into this State, or sell, barter, offer for sale or have in his possession for sale, any apples infected with any insect pest, or the pupæ or larvæ thereof, and any apple which has been infected with San Jose scale or codlin[g] moth and bears the evidence of such infection, shall be deemed to be so infected, or any disease, and whenever apples are sold or kept or offered for sale loose in the container, or are not so arranged as to comply with the definition of the term "well packed," as herein defined, then the container must be marked on the outside thereof in the English language and in letters not less than one-half inch in height with the words "unclassified apples;" provided, however, that this section shall not be construed to prevent a grower of fruits in the State of California from selling the same unpacked and unmarked, and so infected, as a part of his crop in bulk, to a packer, or to prevent a grower or packer from manufacturing the same into any apple by-product or from selling the same unpacked and unmarked to any person, firm, company, organization or corporation actually engaged in the operation of an apple by-product factory, and for the express purpose of being used in the manufacture of an apple by-product. (Supp. 1925, G. L., Act 2800, § 5.)

54. Misleading Statements.—No statement, figure, design or device appearing upon any container in which apples are sold, bartered, or offered for sale, or in which apples are packed for sale or shipment, or upon the brand or lining of any such container, or upon the wrapper of any apple therein contained, or upon any sign or placard used in connection therewith and having reference to the apples contained, shall be false or misleading, in any particular. The words "Extra fancy" shall not be used with reference to any apples the grade of which does not conform to the standard for "Extra fancy" grade as in this act defined; and the word "Fancy" shall not be used with reference to any apples the grade of which does not conform to the standard for "Fancy" grade as in this act defined; nor shall the letter "C," as an indication of grade, or quality, be used with reference to any apples the grade of which does not conform to the standard for "C" grade as in this act defined. (G. L. 1923, Act 2800, § 6.)

55. Powers of Director of Agriculture in Enforcing Act.—The director of agriculture of the State of California shall be charged with the enforcement of the provisions of this act, and for that purpose shall have the power:

(a) To enter and to inspect every place within the State of California where apples are produced, packed, stored, shipped, delivered for shipment, offered for sale or sold, and to inspect such places and all apples and apple containers and equipment found in any such place.

(b) To provide a uniform method of stamping, or otherwise marking or identifying packages of apples which have been inspected by him or his deputies or inspectors; such method when once provided shall not be changed during that fiscal year, but with this exception, may be varied from time to time as he may determine.

(c) In accordance with the provisions of the civil service law of this State, to appoint, superintend, control and discharge such chief inspectors and subordinate inspectors as in his discretion may be deemed to be necessary, for the special purpose of enforcing the terms of this act, to prescribe their duties, and in conjunction with the Board of Control, to fix their compensation; provided, however, that each horticultural commissioner appointed under the provisions of the law of the State of California, and each deputy and inspector duly appointed and acting under him, shall be deemed to be inspectors of apples under this act, their authority, in each instance, to be limited to the county or counties for which such horticultural commissioner may have been appointed, and they, in each instance, insofar as they may act as inspectors of apples, to be subject to the supervision and control of and to act under the director of agriculture.

(d) Personally, or through any deputy or any such inspector, to seize and retain possession of, any apples or apple containers packed, shipped, delivered for shipment, offered for sale, or sold, in violation of any of the provisions of this act.

(e) In the name of the people of the State of California to cause to be instituted and to prosecute, in the Superior Court of any county or city and county, of the State of California in which apples packed, shipped, delivered for shipment, offered for sale or sold, in violation of any of the provisions of this act, may be

found, an action or actions for the condemnation of apples as provided in section thirteen [14] of this act.

(f) The Director of Agriculture, at the request of any person interested, personally, or by his duly appointed deputies or inspectors, may inspect any package or lot of apples and at the request of any person interested may issue a certificate stating the fact and the quality and condition of the package or lot of apples so inspected. Such certificate shall be received in evidence in all of the courts of the State of California as prima facie proof of the truth of the statements therein contained. For such inspection certificate, when the apples have theretofore been inspected by him, or by any of his deputies, or inspectors, the Director of Agriculture may charge and collect such fee as he may determine to be reasonable; provided, that such fees shall be uniform for each fiscal year and shall not exceed three-fourths of one cent for each box of packed apples.

(g) From time to time to establish, promulgate and enforce such reasonable and uniform rules and regulations, not in conflict with any of the provisions of this act, as he may deem to be proper for the conduct of inspectors, the inspection of fruit, the use of stamps, marks or other designation, the form of, and the collection of fees for, certificates and the charges to be made hereunder for the use of such stamps, marks or other designation.

(h) No certificate shall be issued, by any party other than the grower or shipper, in substance or effect stating that any apples have been inspected and have been found to, or not to, correspond with the requirements or grades of this act, or any thereof, nor shall any stamp, label, symbol, sign, or statement, indicating or intended to indicate that the apples in any container have been inspected and do or do not correspond with such requirements or any thereof, be stamped or affixed to or upon any container of apples, unless such certificate shall have been issued or the use of such stamp shall have been authorized, by the Director of Agriculture or some inspector appointed as in this act provided, and then only as in this act provided. (Supp. 1925, G. L., Act 2800, § 7.)

56. Fee for Affixing Stamp; Disposition of Fees.—For the privilege of affixing to or using upon any container of apples the stamp, mark or other designation provided by the Director of Agriculture to identify apples which have been inspected as provided by section seven of this act, there shall be paid to said director such sum as he may determine hereunder, not to exceed three-fourths of one cent for each container bearing such stamp, mark or other designation. No such stamp, mark or other designation, so provided by the Director of Agriculture, shall be affixed to or used upon any container of apples, the contents of which have not been inspected, or which is not one of a unit of like containers so inspected. All moneys received by the Director of Agriculture for certificate fees, or for such privileges, shall be paid over to the treasurer of the State of California, who shall deposit the same to the credit of the standard apple fund, which fund is hereby created to be used exclusively for the payment of the expenses of enforcing the provisions of this act, and to be paid out only upon claims approved by the director of agriculture and by the board of control. Subject to the approval of the board of control, one thousand dollars of the standard apple fund may be used as a revolving fund for the purposes of carrying out the provisions of this act. (G. L. 1923, Act 2800, § 8.)

57. Qualifications of Inspectors.—The inspectors appointed by the Director of Agriculture of California, as in section seven hereof provided, shall be citizens of the United States, and of the State of California, not less than twenty-one years of age, shall be skilled in the inspection of apples, and have a thorough knowledge of insect pests and diseases commonly preying upon and other defects found in or upon such fruit; they shall have power to enter and to inspect every place within the State of California where apples are produced, packed, stored, shipped, delivered for shipment, offered for sale or sold, and to inspect all such place and apples and apple containers and the equipment found in any such place; and shall perform such other duties as may be prescribed by the Director of Agriculture of California, or by law. The said Director of Agriculture shall assign such inspectors to such territory, within the State, as he may see fit; provided, that when for any year the moneys paid in for certificates and for the privilege of using the said stamps, marks, or other designations, by packers in any town, city or district, shall yield a sum of money sufficient to pay the expense thereof, such director of agriculture shall assign one inspector or more for special duty in such town, city or district, during the packing season of that year, or for a longer period, if deemed to be necessary. (Id. § 9.)

58. Duties of Inspectors.—It shall be the duty of each of such inspectors to enforce the provisions of this act and to cause the prosecution of any person, company, firm, corporation or organization, whom he knows or has reason to believe to be guilty of the violation of any of its provisions. Every inspector, in the performance of his duties, shall have the same powers possessed by peace officers under the laws of the State of California. (Id. § 10.)

59. Repacking.—No container to or on which is attached or affixed any such stamp or mark or on which shall appear the designation of grade as "Extra fancy," "Fancy" or "C" grade, shall be used as the container of any apples other than those originally packed therein, until such stamp or grade designation has been removed; provided, that when apples are repacked, without the addition of new stock other than stock of the same grade and from the same lot of which the package or packages repacked is or are a part, the same containers may be used without removing the stamps, marks or grade designations. (Id. § 11.)

(Id. § 14.)

63. Common Carrier May Refuse to Accept Shipments.—It shall be lawful for any person, firm, company, corporation or organization and for any common carrier to refuse to accept for shipment or transportation, and to refuse to ship or to transport, any apples which upon inspection are found to be or to be packed in violation of any of the provisions of this act, and any such person, firm, company, corporation, organization or common carrier, may reserve the right in any receipt, bill of lading or other writing given to the consignor thereof, to reject for shipment or transportation and to return to such consignor, or to hold at the expense and risk of the latter, all apples which upon inspection are found to be or to be packed in violation of any of the provisions of this act. (Id. § 15.)

64. Guaranty; Form.—No person, firm, company, organization or corporation, shall be convicted of a violation of any provisions of this act, if he shall establish a guaranty, signed by the person, firm, company, organization or corporation residing or lawfully engaged in business in the State of California, by or for whom the apples in question were originally packed, or repacked, to the effect that the apples, container, brand and label in question comply in all respects with the provisions of this act, and in addition, shall establish that the same are in substantially the same condition, in every respect, as they were when they were delivered out of the possession of such packer, and that the accused was not aware that such apples, container, brand or label, were or was in any respect in violation of any provisions of this act. The signature to such guaranty may be printed, when done by the authority of the signer. To afford protection, such guaranty, in form and substance, must be substantially as follows:

(Signature of packer, with statement as to whether packer is firm, company, organization or corporation and business address.)"

Where the guaranty is used on each separate box, it may consist of the legend, "guaranteed by the packer, under the California standard apple act," printed, stamped or written on the labeled or branded end of the package. (Id. § 16.)

(Id. § 3.)

167. Grades of Milk.—Where an inspection service is maintained as provided in section two of this act, milk shall be graded as follows: Certified milk, guaranteed milk, grade A milk, grade B milk and milk not suitable for human consumption; provided, that milk sold or exchanged or offered or exposed for sale or exchange as and for, or under the designation, label or other representation of "guaranteed," "grade A" or "grade B," milk shall have the grade and whether raw or pasteurized marked on the container or cap of the container in capital letters not less than one-eighth inch long and one-sixteenth inch wide; and provided, further, that milk not suitable for human consumption shall be plainly so marked. (Id. § 4.)

168. Approval of Inspecting Department.—No person, firm or corporation shall sell or exchange, or offer or expose for sale or exchange, as or for guaranteed milk, any milk, raw or pasteurized the quality of which is guaranteed by the dealer, without approval in writing of the inspecting department, which milk must be of a higher standard than that required for grade A raw milk. (Id. § 5.)

169. Requirements for Grade A Milk; Dairies Having Not More Than Two Cows; Sterile Containers; Bacteria Content.—No person, firm or corporation shall sell or exchange, or offer or expose for sale or exchange, as and for grade A milk, any milk that does not conform to the rules and regulations and the methods and standards for production and distribution of grade A milk adopted by the inspecting department.

Grade A milk shall conform to the following requirements as a minimum: If raw, it shall consist of the clean raw milk from healthy cows as determined by physical examination at least once in six months by a qualified veterinarian under the supervision of the inspecting department, and by the tuberculin test by a qualified veterinarian under the supervision of the State Veterinarian,* and from dairies that score not less than seventy per cent on the score card hereinafter set forth; provided, however, that dairies having not more than two milking cows, and, which are found by any such inspecting department to comply fully with the remaining provisions of this act are hereby exempted from such scoring requirements and from the use of the labels prescribed in section four hereof. The tuberculin test must be repeated annually if no reacting animals are found in the herd. If reacting animals are found they must be removed from the herd, and the tuberculin test repeated in six months. All cows are to be fed, watered, housed and milked under conditions approved by the inspecting department. All persons who come in contact with the milk must exercise scrupulous cleanliness and must not harbor the germs of typhoid fever, tuberculosis, diphtheria or other infectious diseases liable to be conveyed by milk. Absence of such infections shall be determined by cultures and physical examinations, to the satisfaction of the inspecting department.

This milk is to be delivered in sterile containers and is to be kept at a temperature established by the inspecting department until it reaches the ultimate consumer, when it must contain less than one hundred thousand bacteria per cubic centimeter. If pasteurized it shall come from cows free from disease as determined by physical examination at least once in six months, by a qualified veterinarian under the supervision of the inspecting department. It shall contain less than two hundred thousand bacteria per cubic centimeter before pasteurization and less than fifteen thousand bacteria per cubic centimeter at the time of delivery to the ultimate consumer. Dairies from which this milk is derived must score at least sixty on the score card hereinafter set forth. (Id. § 6.)

170. Requirements for Grade B Milk; Pasteurization; Records.—No person, firm or corporation shall sell or exchange, or offer or expose for sale or exchange, as and for grade B milk, any milk that does not conform to the following requirements as a minimum: It must be obtained from cows in no way unfit for the production of milk for use by man, as determined by physical examination at least once in six months by a qualified veterinarian under the supervision of the inspecting department. Before pasteurization such milk shall contain less than one million bacteria per cubic centimeter. After pasteurization it shall contain less than fifty thousand bacteria per cubic centimeter.

Milk for pasteurization must be kept at a temperature established by the inspecting department up to the time of delivery to the pasteurization plant and rapidly cooled after pasteurization to a temperature of fifty degrees Fahrenheit or below and so maintained to the time of delivery of the same. Pasteurization

Such pasteurization plant shall be equipped with a self-registering device for record of the time and temperature of pasteurization. Such records shall be kept for two months and be available for inspection by any health department, the State Veterinarian or any of his agents, or the State Dairy Bureau. Pasteurized milk shall be marked with the day of the week of pasteurization and must be delivered to the consumer within forty-eight hours thereafter. If milk is repasteurized, it must not be sold except as not suitable for human consumption; provided, however, if graded, cream of any grade shall conform to all the standards set for milk of the same grade, except that the maximum bacterial count for cream shall be not more than three times as great as that of the corresponding grade of milk. (Id. § 7.)

171. Milk Not Suitable for Human Consumption.—Milk not suitable for human consumption may be sold for industrial purposes, provided it be heated to a higher temperature than necessary for pasteurization, and delivered in a distinctive container, plainly marked with the words "Not suitable for human consumption," in letters not less than one-quarter inch in length and one-twelfth inch stroke. After the filing of such request, said dairyman shall not be liable under the provisions of this act until such time as the State Veterinarian shall be able to make the required test. The provision of this section shall apply also to any dairyman, operating under an inspecting department, if such inspecting department approves. (Id. § 13.)

It shall further be unlawful for any person, firm or corporation to sell or exchange, or offer or expose for sale or exchange, for human consumption any butter, ice cream or other products of milk (except cheese and except butter as provided in the general dairy law of California) into the composition of which any milk enters other than that permitted in this section of this act to be sold at retail for human consumption. (Id. § 3.)

189. Market Milk; Classes.—For the purposes of this act market milk shall be construed to include market cream and shall be divided into three general classes, as follows: Market milk or cream, manufacturing milk or cream and milk or cream unfit for human consumption. (Id. § 4.)

190. Market Milk Includes, What; Sale of Raw Milk; Graded Milk; Ungraded Milk.—Market milk or cream shall include all milk or cream supplied to the consumer in the natural fluid state or prepared for human consumption without being converted into any other form or product.

191. Manufacturing Milk; Use for Other Purposes.—Manufacturing milk or cream is milk or cream that is to be made into butter, cheese, condensed milk, powdered milk and by-products, such as casein, milk sugar and albumen.

Manufacturing milk may also be used, wholly or in part, in the manufacture of other foodstuffs to be sold at retail; provided, that during the process of manufacture or immediately prior thereto, said milk shall have been subjected to a temperature of at least one hundred forty degrees Fahrenheit for thirty consecutive minutes; and provided further, that for every degree above one hundred forty-five degrees Fahrenheit the time during which such temperature must be maintained may be decreased by one minute. The time for maintaining such temperature however, shall not be less than five minutes, except for milk that is repasteurized for manufacturing purposes as provided in section nineteen of this act. (Id. § 6.)

192. Sale of Impure and Unwholesome Milk.—Milk or cream which does not conform to the requirements as defined in the general dairy law of California or with the requirements of either market milk or manufacturing milk as set forth in this act or which has been produced in an insanitary dairy or factory of dairy products or other insanitary place, or which has been handled in an insanitary manner is hereby declared to be impure and unwholesome and must not be sold for human consumption. Such milk must be kept in a distinctive container plainly marked with the words "unfit for human consumption." (Id. § 7.)

For the purpose of this act the term "milk inspecting department" shall be construed to mean the health department of a county or group of counties, city or group of cities, or city and county maintaining a milk inspection service approved in writing by the Department of Agriculture of the State of California, and such milk inspecting department shall include at least one regularly licensed physician. It shall be unlawful for any person, firm or corporation to sell or exchange, or offer or expose for sale or exchange any milk as and for or under the designation, label or other representation of "guaranteed," "grade A" or "grade B" milk, except within a county or group of counties, city or group of cities, or city and county maintaining a milk inspection service approved by the Department of Agriculture of the State of California; provided, that a person, firm or corporation which is authorized to sell milk within the jurisdiction of a milk inspecting department may sell milk from the same supply, of the same quality, in similar containers, and under the same label in territory outside the jurisdiction of any milk inspecting department, if local ordinances are not thereby violated, and also in territory within the jurisdiction of any other milk inspecting department; if the consent of said other milk inspecting department has been previously obtained. (Id. § 9.)

195. Milk Not to be Sold for Human Consumption.—Except as provided in section sixteen of this act, all milk sold or exchanged or offered or exposed for sale or exchange, except in bulk to the wholesale trade, in any county or group of counties, city or group of cities, or city and county, in which a milk inspection service, approved by the Department of Agriculture of the State of California has been established, except certified milk, guaranteed milk, grade A milk, grade B milk and manufacturing milk as provided in section sixteen of this act is hereby declared to be impure and unwholesome and must not be sold for human consumption. (Id. § 10.)

197. Certified Milk.—Certified milk is market milk which conforms to the rules and regulations, methods and standards for the production and distribution of certified milk adopted by the American Association of Medical Milk Commission, and must bear the certification of a milk commission appointed by a county medical association, organized under and approved by the Medical Society of the State of California, and must otherwise conform to the requirements of the so-called certified milk act, approved April 25, 1913 (Stats. 1913, p. 83).* (Id. § 12.)

198. Guaranteed Milk.—Guaranteed milk is milk either raw or pasteurized, the quality of which is guaranteed by the dealer in a written statement filed with an approved milk inspecting department and approved in writing by said department.

Before it approves any guaranteed milk, each milk inspecting department shall set a minimum standard for such milk produced under its supervision, which standard whether for raw or pasteurized shall be higher than that required for grade A raw. (Id. § 13.)

199. Requirements for Grade A Milk.—No person, firm or corporation shall sell, or exchange, or offer or expose for sale or exchange, as and for grade A milk, any milk that does not conform to the rules and regulations and the methods and standards for production and distribution of grade A milk adopted by the milk inspecting department. Grade A milk shall conform to the following requirements as a minimum:

If raw, it shall consist of clean, raw milk from healthy cows as determined by physical examination at least once in six months by a qualified veterinarian under the supervision of a milk inspecting department, and by the tuberculin test by a qualified veterinarian under the supervision of the Department of Agriculture of the State of California, and from dairies that score not less than seventy per cent on the score card adopted by the Department of Agriculture of the State of California; provided, however, that dairies where no two cows freshen within any four consecutive months and which are found by any milk inspecting department to comply fully with the remaining provisions of this act are hereby exempted from such scoring requirements and from the use of labels prescribed in section twenty hereof. The tuberculin test must be repeated annually, if no reacting animals are found in the herd. If reacting animals are found, they must be removed from the herd, and the tuberculin test repeated in six months. All cows are to be fed, watered, housed and milked under conditions approved by the milk inspecting department. All persons who come in contact with the milk must exercise scrupulous cleanliness and must not harbor the germs of typhoid fever, tuberculosis, diphtheria or other communicable diseases liable to be conveyed by milk. Absence of such germs shall be determined by cultures and physical examination to the satisfaction of the milk inspecting department. This milk is to be delivered in sterile containers and is to be kept at a temperature established by the milk inspecting department until it reaches the ultimate consumer, when it must contain less than one hundred thousand bacteria per milliliter.

If pasteurized, it must come from cows free from disease as determined by physical examination at least once in six months, by a qualified veterinarian under the supervision of the milk inspecting department. It shall contain less than two hundred thousand bacteria per milliliter before pasteurization and less than fifteen thousand bacteria per milliliter at the time of delivery to the ultimate consumer. Dairies from which this milk is derived must score at least sixty on the score card approved by the Department of Agriculture of the State of California. (Id. § 14.)

200. Requirements for Grade B Milk.—No person, firm or corporation shall sell or exchange, or offer or expose for sale or exchange as and for grade B milk, any milk that has not been pasteurized or does not conform to the following re-

Before pasteurization it shall contain less than one million bacteria per milliliter and after pasteurization shall contain less than fifty thousand bacteria per milliliter. (Id. § 15.)

201. Manufacturing Milk, Use and Treatment of.—Milk which contains more than one million bacteria per milliliter but otherwise conforms to all the requirements of grade B milk shall be known as manufacturing milk and must not be sold for human consumption as market milk. It may, however, be used, wholly or in part in the manufacture of foodstuffs to be sold at retail; provided, that during the process of manufacturing or immediately prior thereto said milk shall have been subjected to a temperature of at least one hundred forty degrees Fahrenheit for thirty consecutive minutes; and provided, further, that for every degree above one hundred forty-five degrees Fahrenheit the time during which such temperature must be maintained may be decreased by one minute. The time for maintaining such temperature however shall not be less than five minutes, except for milk that is repasteurized for manufacturing purposes as provided in section nineteen of this act.

This section shall not be construed to prohibit, within the jurisdiction of milk inspecting departments, the use in the manufacture of butter, cheese, condensed milk, powdered milk or by-products, as provided in section six of this act, of any milk permitted to be used for such purpose outside the jurisdiction of any milk inspecting department; provided, however, such milk shall not be used except in a regularly licensed milk product factory, which has complied with all the provisions of the general dairy law of California and which has obtained, in writing, permission to operate within the jurisdiction of a milk inspecting department from the Department of Agriculture of the State of California. (Id. § 16.)

202. Milk Unfit for Human Consumption.—Milk not suitable for human consumption as provided in sections seven, ten and eleven of this act may be sold for industrial purposes, provided it be heated to a higher temperature than necessary for pasteurization, and delivered in a distinctive container, plainly marked with the words "Unfit for human consumption" in letters not less than one-quarter inch in length and one-twelfth inch stroke. (Id. § 17.)

203. Market Cream.—If graded, market cream of any grade shall conform to all the standards set for market milk of the same grade, except that the maximum bacterial count for cream shall be not more than three times as great as that of the corresponding grade of milk. (Id. § 18.)

204. Pasteurization.—Milk for pasteurization must be kept at a temperature established by the milk inspecting department up to the time of delivery to the pasteurization plant and rapidly cooled after pasteurization to a temperature of fifty degrees Fahrenheit or below and so maintained to the time of delivery to the ultimate consumer.

Except as otherwise provided in sections six and sixteen of this act, pasteurization shall be by the holding method at a temperature not less than one hundred and forty degrees Fahrenheit for thirty minutes; provided, that market milk shall not be heated above one hundred forty-five degrees Fahrenheit.

Every pasteurization plant shall be equipped with a sufficient number of self-registering devices to accurately record the temperature to which and the length of time for which the pasteurized product has been heated. Such records shall be kept for two months and be available for inspection by any authorized inspector, agent or other employee of any health department or any milk inspection department or the Department of Agriculture of the State of California.

Milk may be repasteurized not to exceed once for manufacturing purposes. Repasteurized milk shall not be sold for market milk. (Id. § 19.)

(c) No distinguishing names, marks or words other than those specified in this act shall appear on any bottle, cap, can or container to signify or describe the quality which distinguishes the milk or cream contained therein from similar products of the same class or grade; provided, that nothing herein contained shall prohibit the use of the names of breeds of dairy cattle, breed trade-marks or other designations adopted by a national or State breed association approved by the Department of Agriculture of the State of California, when such breed names, trade-marks or designations are placed only on an inner cap or embossed or engraved in the glass of the bottle, or the use of expression "from nonreacting tuberculin tested cows"; and provided, further, that nothing herein contained shall be construed to prohibit the dating of milk bottle caps under the rules of an approved milk inspecting department, or under local ordinances.

(d) It shall be unlawful for any person, firm or corporation selling or handling market milk to have in his or its possession or under his or its control any milk bottle cap or label, except the individual producer or distributor of milk who is responsible for the quality of the contents of any milk container and for the correct labeling thereof as required by this act. It shall be unlawful for any person, firm or corporation selling or handling market milk to substitute any required cap or label for another cap or label, or to remove any cap or label from any milk container and attach said cap or label to another milk container. It shall be unlawful to sell or offer for sale or have on hand for sale any milk bottle caps which are not in unopened, dustproof packages in which they have been packed by the manufacturer. Imitation milk shall contain not less than three per cent of edible oils or fats and, if evaporated or condensed, shall contain not less than seven and eight-tenths per cent of edible oils or fats. Each manufacturer and wholesale dealer shall submit monthly to the Department of Agriculture an alphabetical list of the names and addresses of all persons, firms and corporations to which sales or deliveries of oleomargarine have been made during the preceding month, showing the total amount of oleomargarine which was included in the aggregate transactions in each case for the preceding month or part thereof. Each of said statements shall be verified by an affidavit made by the person submitting it certifying the correctness of said report. For the purpose of checking such statements, and for the further purpose of carrying out the provisions of this act, the Department of Agriculture shall have power to examine the books and accounts of persons, firms and corporations required to submit such verified lists and statements.

An aggregate statement of such sales, sworn to by each manufacturer or wholesaler, shall be rendered quarterly to the Department of Agriculture of the State of California and shall be accompanied by the corresponding amount of such fee of two cents per pound as above specified; provided, that the first quarter shall be for the three months ending December 31, 1925, and future quarters shall cover the three months of each year ending March 31, June 30, September 30 and December 31.

Butter made from assembled cream made from pure milk fat (made from nonrancid butter) combined with other wholesome milk products, under special permit from the Department of Agriculture of the State of California, which otherwise conforms to the standards for butter required by this act, shall not be construed to be renovated butter.

The original record shall be immediately delivered to the purchaser or receiver of said milk or cream who shall retain said original record for a period of at least three months. The said licensed tester shall retain an unmodified sample of all milk or cream tested by him for a period of not less than forty-eight hours after tests of said milk or cream have been made and said purchaser or receiver of milk or cream shall provide a suitable place where such samples so retained may be kept and such place shall be acceptable to the said Department of Agriculture. (Id. § 8.)

299. Penalty for Violation.—The violation of any of the provisions of this act is hereby declared a misdemeanor, and every person violating any of its provisions, shall, upon conviction thereof, be fined in a sum not less than one hundred nor more than five hundred dollars, or by imprisonment in the county jail for a term of not less than twenty-five nor more than one hundred fifty days, or by both such fine and imprisonment; and all fines collected for any violation of any of the provisions of this section shall be paid into the State treasury, to the credit of the fish and game preservation fund. (Id. § 9.)

300. Jurisdiction Over Fish Industries.—The fish and game commission is hereby vested with jurisdiction to regulate and control fishing boats, barges, lighters or tenders, receptacles or vehicles containing fish, commercial fishermen, fish canners, packers or preservers, fish reduction plants, plants where any fishery products are manufactured, dealers in fish, mollusks or crustaceans or other fishery products, in so far as it may be necessary to insure the taking, catching and delivery of the fish or other fishery products in a wholesome and sanitary condition to canning, packing, preserving, or reduction plants, or any plant where fishery products are manufactured, or to any fresh fish dealer, and to prevent deterioration and waste of any products or of any fishery products. Any fish and game commissioner or assistant or employee of the fish and game commission shall have the authority to enter any canning, packing, preserving or reduction plant, or place of business where fish or other fishery products are packed, preserved, manufactured, bought or sold, or to board any fishing boat, barge, lighter, tender, or vehicle or receptacle containing fish, for the purpose of carrying out the provisions of this act, and any person denying such right of entry shall be guilty of a misdemeanor. (Supp. 1925, G. L., Act 2895, § 1.)

301. Establishment of Grades.—The fish and game commission may establish grades for different varieties of fish or other fishery products, which said grades must be reached and conformed to by the commercial fishermen who deliver fish or other fishery products to canners, packers or preservers of fish or to fresh fish dealers, or to a reduction plant, and every canner, packer, or preserver of fish or fish dealer or owner of reduction plant, or manufacturer of fish products, must conform to such grade. (Id. § 2.)

302. Regulations.—The fish and game commission is hereby vested with full power, authority and jurisdiction to make and enforce such regulations as may be necessary or convenient for carrying out any power, authority or jurisdiction conferred under this act. (Id. § 3.)

303. "Reduction Plant"; "Packer"; "Wet Weight"; Hearings; Witness Fees.

—(a) Reduction plant, where used in this act, applies to any plant engaged in the reduction of fish into products which are not intended to be used, and are not, in fact, used for human consumption. Any plant where fish are put through a reduction or extraction process shall be deemed to be a reduction plant, and shall be subject to all provisions and limitations of this act, unless a permit shall have been obtained as in this act provided.

(b) Packer, where used in this act, means any person, firm, association or corporation using fish by canning, or preserving by the common method of drying, salting or smoking.

(c) Wet weight, where used in this act, means the weight of the round, whole fish, uncleaned.

(d) Wherever, in this act, hearings are required to be held by the fish and game commission, the following notice and method shall be used: Notice of time and place shall be served on the party interested at least five days before the date of hearing. At such time and place designated in said notice testimony under oath shall be taken by any member of the board of fish and game commissioners or by any assistant or employee, designated by them, who shall have the power to administer oaths, take affidavits and issue subpoenas for the attendance of witnesses. The testimony shall be taken down in shorthand and transcribed and shall contain all ruling and offers of evidence whether or not the same are permitted.

Each witness at the hearing shall be allowed for his appearance the same fees and mileage allowed by law to a witness in a civil case and the amount shall be paid, together with the cost of advertising by the party making application for a permit. (Id. § 4.)

304. Disposal of Waste; Use of Sardines in Reduction Plant.

—No person, firm or corporation shall suffer or cause any preventable deterioration or waste of any fish caught or taken in the waters of this State, or brought into this State, and no person shall use any fish except fish offal in a reduction plant, except of the species in the manner and to the amount allowed by the provisions of this act.

(a) It shall be lawful for a packer of sardines, actually engaged in packing sardines, to take and use in a reduction plant in each calendar month, sardines to the amount of twenty-five per cent of the monthly capacity of the packing plant; such capacity shall be determined by the fish and game commission after a hearing is held, as in this act provided. In determining such capacity, the fish and game commission must take into consideration and base its findings upon the following facts, namely:

The number of can closing machines for one pound oval cans of sardines actually installed in said plant and ready for and intended to be used therein during the season immediately following the making of the application hereinafter mentioned; provided, that the other equipment of said plant necessary for canning to the capacity of said closing machines is likewise installed and ready for operation. For each closing machine so installed the fish and game commission shall make a monthly allowance of sardines to be used in the reduction plant of one hundred and fifty tons for each calendar month.

Prior to each seasonal run of sardines, packers shall make written applications to the fish and game commission to hold a hearing and determine such capacity.

In order to regulate plants other than packing plants and reduction plants, where by a reduction or extraction process, the fish or the oil therefrom is manufactured into products which are fit for human consumption, the fish and game commission shall have the powers hereby granted to make a determination as to whether the products of such plants are intended to be used for human consumption. It shall be unlawful for any person, firm, association or corporation, except packers as above specified, by a reduction or extraction process to use sardines without obtaining a permit from the fish and game commission.

In order to obtain such permit, written application must be filed with said fish and game commission, setting forth the quantity of fish to be used, the location of the plant, processes used and the nature of products to be manufactured out of the sardines to be received.

Thereupon the fish and game commission shall hold a hearing and the applicant shall furnish proof that the product to be manufactured out of such fish is fit for human consumption, is intended so to be used, and will, in fact, be used for human consumption and that either fifty per cent of the wet weight of such fish or all of the oil extracted from such fish will be used in the manufacture of such product within the State of California. If the commission is satisfied that the product so to be manufactured is fit for human consumption, and will, in fact, be used entirely for human consumption and that either fifty per cent of the wet weight

of the fish will be used in the manufacture of such product or that all of the oil to be extracted from such fish will be so used, and within the State of California, then the commission shall issue a permit authorizing applicant to use in its said plant the quantity of fish requested in said application for the purposes therein specified. If at any time it shall appear to the commission that neither fifty per cent of the wet weight of the fish received at said plant under such permit nor all of the oil extracted from such fish is being used to manufacture within the State of California a product fit for human consumption or that all of the product manufactured at said plant from such fish under said permit is not being used entirely for human consumption then the commission shall issue an order requiring the permittee to show cause before the commission at a time and place to be fixed by said commission why said permit should not be revoked. The time of the hearing shall be not less than five days after the service of said order to show cause. At such hearing, the commission shall take the testimony and if the commission finds that any of the terms of the permit have been violated, it may revoke said permit or suspend the same for such period of time as to it may seem proper.

Within thirty days after the rendition of an order by the fish and game commission refusing or revoking a permit, any party affected may apply to the Supreme Court of this State or to the District Court of Appeal of the appellate district in which such person resides for a writ of certiorari or review, hereinafter referred to as a writ of review, for the purpose of having the lawfulness of the order inquired into and determined.

Such writ shall be made returnable not later than thirty days after the date of the issuance thereof and shall direct the commission to certify its record in the case to the court. On the return day, the cause shall be heard in the court unless for good cause the same may be continued. No new or additional evidence may be introduced in such court, but the cause shall be heard on the record of the commission as certified to by it.

The review shall not be extended further than to determine whether:

1. The commission acted without or in excess of its powers.
2. The order was procured by fraud.
3. The order was unreasonable.

4. Whether the findings of fact support the order under review. The findings and actions of the commission on questions of fact shall be conclusive and final and shall not be subject to review. The commission and each party to the action of proceeding before the commission shall have the right to appear in the review proceeding. Upon the hearing, the court shall enter judgment, either affirming or setting aside the order, or may remand the case for further proceedings before the commission.

The provisions of the Code of Civil Procedure in this State relating to writs of review shall, so far as applicable and not in conflict with this act, apply to the proceedings of the courts under this section. No court of this State, except the Supreme Court and District Court of Appeal, to the extent herein specified, shall have jurisdiction to review, reverse, correct or annul any order or decision of the commission or to suspend or delay the operation or execution thereof, or to restrain, enjoin, or interfere with the commission in the performance of its duties; provided, that a writ of mandamus shall lie from the Supreme Court or the District Court of Appeal in all proper cases.

The filing of the application for, or the pendency of the writ of review shall not of itself stay or suspend the operation of the order of the commission subject to review, but the court before which application is filed, may, in its discretion, stay or suspend, in whole or in part, the operation of the order of the commission subject to review upon such terms and conditions as it may by order direct. (Id. § 5.)

305. Nuisance and its Abatement.—The use of any fish or any part thereof contrary to the provisions of this act is hereby declared to be a nuisance. Whenever the existence of such nuisance is shown to the satisfaction of the court or judge thereof by the complaint filed in the name of the people of the State of California, the court or judge shall allow a temporary writ of injunction to abate and prevent the continuance or recurrence of such nuisance. If the existence of a nuisance be established in an action as provided herein an order of abatement shall be entered as part of the judgment in the case, which order shall direct the closing of the building or place where such nuisance was maintained for a period of three months, and during such time, said building or place shall be and remain in the custody of the court. (Id. § 6.)

306. Chutes, Tanks, etc., to be Open to Inspection.—All chutes or conveyors used for the purpose of conveying fish or fish offal to any tank, bin or receptacle, and all such tanks, bins or receptacles containing fish or fish offal to be

used for reduction purposes must be so constructed and maintained that at all times the fish or fish offal thereon or therein is open to view and inspection. Any violation of this section is hereby declared to be a misdemeanor. (Id. § 7.)

307. Title.—This act shall be known as the "State fish exchange act." (G. L. 1923, Act 8034, § 1.)

308. Purpose.—It is hereby declared that it is the purpose of this act to bring about an increased consumption of fresh fish by the people of California, to enable them to obtain the same at reasonable prices, and to empower the State Market Director* to regulate and control the business of buying and selling fresh fish, to regulate the destruction of food fish, to create a State Fish Exchange, to license those engaged in marketing fresh fish, to create a State Fish Exchange fund, to provide penalties for violations of this act, to investigate and report on the fish industry, and to promote the sale of fish. (Id. § 2.)

309. Terms Construed.—The following terms used in this act shall, unless a different meaning is plainly required by the context, be construed as follows: The "State Market Director" shall be understood to be himself personally or his duly appointed and authorized representative.

A "person" shall be deemed to include individuals, partnerships, associations and corporations or their agents or employees. A "retail dealer," "peddler," or "huckster," is one engaged in the business of selling fresh food fish direct to the consumer. A "wholesale dealer" is one who sells fresh food fish to hotels, restaurants, railroads, steamships, hospitals, institutions and all others than the consumer, and especially to retail dealers for resale. A "fish buyer" or "fish broker" is one engaged in the business of buying or selling fresh food fish for the owner or consignee, or who, without an established place of business, buys from the fishermen for the purpose of reselling to others than the consumer. "Market fishermen" are individuals engaged in the business of catching fish under licenses issued by the State Fish and Game Commission authorizing them to do so. When the singular is used, the plural is also included; whenever the masculine is used, the feminine and neuter are included. (Id. § 3.)

310. Title to Fish in State.—It is hereby declared that the ownership and title to all fish found in the waters under the jurisdiction of the State are in the State of California; no such fish shall be caught, taken or killed in any manner or at any time except that the person so catching, taking or killing or having the same in his possession, irrespective of the manner in which they were obtained, shall by such act or possession thereby consent that the title to such fish shall be and remain in the State of California for the purpose of regulating and controlling the use and disposition of same after such catching, taking or killing except that the title to such fish legally taken shall vest in the person so taking or possessing them, subject to the restrictions and provisions of law. All fish found in the possession of a person within the State of California shall be presumed to have been taken under the jurisdiction of the State. (Id. § 4.)

311. Fish Business Regulated by State Market Director; State Markets; Additional Powers of State Market Director.—(a) The State Market Director is hereby vested with jurisdiction to regulate and control the business of buying and selling and otherwise disposing of fresh food fish caught in the waters under the jurisdiction of the State, and the business of buying, selling and disposing of such fresh food fish may not be carried on except in accordance with the provisions of this act.

(b) The State Market Director is hereby vested with jurisdiction to open and conduct where, when, and for so long as he deems it advisable, State markets for the buying and selling of fresh food fish, and to rent, lease or purchase plants and equipment necessary for the same, and to use so much of the funds placed at the disposal of the State Market Director by the act creating the State Commission Market, approved June 10, 1915, or in the event of the repeal of said act, by the State Market Commission act, as may be required in establishing and conducting said markets.

(c) The State Market Director is hereby vested with full power, authority and jurisdiction to do and perform any and all things, whether herein specifically designated, or in addition thereto, which are necessary or convenient in the exercise of any power, authority or jurisdiction conferred under this act. (Id. § 5.)

312. Maximum Prices; Changes in Prices; Unlawful to Charge More Than Lawful Price; Advice on Maximum Prices.—(a) The State Market Director

*The powers and duties of the State Market Director have been transferred to the Department of Agriculture. See § 361b, Political Code, 1923. This act is to be corrected accordingly.

shall, when and where and for so long as he deems it advisable, establish maximum prices to be paid or charged in any particular locality, for food fish of any or all varieties intended for human consumption in its fresh condition, caught in the waters under the jurisdiction of the State:

First—To be paid to those engaged in catching such fish for sale.

Second—To be paid to those engaged in the wholesale fish business.

Third—To be charged to the consumer by retail fish dealers, peddlers or hucksters; and said prices shall be such as will allow, in the judgment of the State Market Director, a reasonable compensation or profit to those engaged in the catching or selling of such fish.

(b) The State Market Director may, at his discretion, from time to time make such changes or withdrawals in the prices authorized in section (a) hereof as he may deem necessary.

(c) It shall be unlawful for any person engaged in the business of selling fresh food fish in a particular locality to charge more than the maximum prices authorized for such locality, as provided in section 6(a) hereof. Any violation of the provisions of this paragraph, after receipt of notice of maximum prices established in accordance with the provisions of section 6(a) of this act, shall be good and sufficient ground for the suspension or revocation by the State Market Director, in his discretion, of any license issued under the authority of this act.

(d) In the exercise of powers under this act, the State Market Director may confer with parties interested with a view of securing their advice and counsel as to maximum prices to be paid and charged. (Id. § 6.)

313. Consent to Destruction or Diversion of Fish; Fish Excepted.—It shall be unlawful for anyone to destroy or cause or permit to be destroy[ed] any food fish in excess of fifty pounds within one day of twenty-four hours or to divert or cause or permit to be diverted any food fish to any use other than human consumption without having first obtained the written consent of the State Market Director to such destruction or diversion. Consent to such destruction or diversion shall be given only where the applicant establishes to the satisfaction of the State Market Director that such destruction or diversion is not for the purpose of influencing prices and that reasonable efforts have been made to induce its consumption by the public. Nothing in this section shall be construed to apply: First, to the use of food fish by fishermen as bait in the customary manner; and, second, to any individual market fisherman who is unable to sell for human consumption fish he has caught and who within forty-eight hours after the destruction or diversion of said fish shall report to the State Market Director the number of pounds and varieties of fish and how disposed of. The deposit in the United States mail of a written statement of said facts, properly addressed to the State Market Director and stamped, shall be accepted as a sufficient report; third, to food fish in the possession of canners, curers or packers and which are not suitable for their use and which in consequence are destroyed or diverted to use other than human consumption; provided, that within forty-eight hours after the destruction or diversion of any such fish the person responsible therefor shall report to the State Market Director the number of pounds and varieties of fish, reason for destruction or diversion and how disposed of. The deposit in the United States mail of a written statement of said facts, properly addressed to the State Market Director, shall be accepted as a sufficient report. (Id. § 7.)

314. When Excessive Supply of Fish Reaches Market.—In the event of a supply of fresh food fish reaching any market, which supply, in the judgment of the State Market Director, is excessive or abnormal: (a) It shall be the duty of the State Market Director, in his discretion, to use every means at his command to induce its consumption by the public, including reduction in prices thereon and increased publicity, as hereinafter provided for; (b) It shall be obligatory on the part of market fishermen and wholesale fish dealers, who find themselves possessed of an excessive supply, to notify the State Market Director of the fact, and failure to give such notice shall be sufficient ground for the suspension for a period not exceeding one month, in the discretion of the State Market Director, of any license issued under the authority of this act; (c) The State Market Director may, at his option, use the moneys of the State Fish Exchange Fund hereinafter provided for in purchasing any part or all of an excess of food fish over the amount that can be sold through ordinary channels, and to place same in cold storage and to resell same to any or all buyers and any loss or profit in such transaction shall be charged or credited to the State Fish Exchange Fund. (Id. § 8.)

315. License Fees; Wholesale Fish Dealers; Payable in Advance; if Sales Greater or Less Than Amount on Which Fee Based.—Every person, individual, partnership, association or corporation, other than market fisherman, engaged in

the business of buying and selling fish for consumption in its fresh condition, shall pay to the State a semiannual license fee, as follows:

First—All retail dealers, dealing exclusively in fish, crustaceans and mollusks, ten dollars.

Second—All retail dealers, handling fish in connection with a retail business, owned by them, in other products than crustaceans and mollusks, and all peddlers and hucksters, five dollars.

Third—All fish brokers and all fish buyers, fifty dollars.

Fourth—All fishermen's organizations selling the catch of their members or agents selling the catch of such fishermen's organization, fifty dollars.

Fifth—All salesmen or agents representing wholesale fish dealers located outside the State, fifty dollars.

Sixth—All wholesale fish dealers, on the basis of their gross receipts from the sale of fresh food fish, including their sales at branch houses, as follows:

When gross receipts for six months are:

Not in excess of twenty-five thousand dollars, fifty dollars.

Between twenty-five thousand dollars and fifty thousand dollars, seventy-five dollars.

Between fifty thousand dollars and one hundred thousand dollars, one hundred dollars.

Between one hundred thousand dollars and two hundred thousand dollars, one hundred fifty dollars.

Between two hundred thousand dollars and three hundred thousand dollars, two hundred dollars.

More than three hundred thousand dollars, two hundred fifty dollars.

Seventh—All branch houses of wholesale dealers—that is, wholesale dealers operating more than one wholesale establishment—for each branch house, five dollars.

Fees payable by wholesale dealers under paragraph six of this section as above, shall be due and payable in advance, and shall be based on the applicant's sworn statement as to his gross receipts from the sale of food fish sold for human consumption in its fresh condition, using the corresponding period of the preceding year as a basis. If the applicant did no wholesale business during said corresponding period, a license shall be issued upon payment of a fee of fifty dollars and the execution of a good and satisfactory bond by the applicant to the State Market Director, guaranteeing the payment of such additional amount as will make the total payable on his actual business during such period equal to the license fee fixed in said paragraph six of this section.

If the amount of actual sales of any such dealer for any semi-annual period for which he has paid license fees in advance shall be greater or less than the amount on which such license fee was based, he shall at the end of such period be charged with and shall pay to the State such additional amount as would be due on the basis of actual sales as set forth in paragraph six hereof, if the amount of actual sales be greater than the amount on which license fee was paid; or, if the actual sales be less than such amount for any such semi-annual period, he shall, at the end thereof, be credited with the difference between the license fee paid in advance and the fee that would have been due on the basis of actual sales as set forth in paragraph six hereof; but such credit shall be made only on further license fees that may be payable by any such dealer. (Id. § 9.)

316. When Payable; for Portion of Period; License for Each Place of Business.—All licenses provided for in this act shall be paid in advance and shall terminate with December thirty-first and June thirtieth, whichever date may first follow the date of issue. A proportionate charge shall be made, according to the number of months covered, for licenses issued for a portion of the semi-annual period, but in no case shall the fee be less than one-half of the semi-annual fee, excepting those issued to wholesale dealers as hereinabove provided in section 9 of this act. A separate license shall be required for each place of business from persons owning or operating more than one establishment, except that the sale of fish from a vehicle by the holder of an exclusive retail fish dealer's license shall not require a peddler's license. Persons doing both a wholesale and retail business shall be required to take out both wholesale and retail licenses unless the total receipts of any such person amount to less than ten thousand dollars per annum, and any such person having total receipts of less than ten thousand dollars per annum shall be considered a retail dealer for licenses hereunder. (Id. § 10.)

317. Application.—All licenses provided for in this act shall be issued by the State Fish Exchange hereinafter provided for, upon written application accompanied by the proper fee, together with a certificate from the local health authorities,

or other satisfactory assurance to the effect that the State and local rules and regulations as to equipment and sanitary conditions have been complied with. (Id. § 11.)

318. Licenses Prepared by State Controller.—The State Controller shall prepare suitable license blanks of the form and class designated by the State Market Director, which shall purport to license the holder to deal in fish. They shall be numbered consecutively, commencing with one, and shall provide spaces in which to insert the name of the person to whom issued, his business address, and the period covered. The controller shall deliver all licenses to the State Market Director, who shall thereupon sign and issue them in accordance with the terms of this act. (Id. § 12.)

319. License Transferred or Assigned.—Any license may be transferred or assigned by the holder thereof upon payment of a transfer fee of five dollars; provided, notice shall be given in writing to the State Fish Exchange, hereinafter provided for, within ten days of such transfer or assignment. In such cases the original license shall be returned to the State Fish Exchange and canceled and a new license issued in lieu thereof for the unexpired portion of the original license, on payment of the fee named. If notice of transfer or assignment be not given, the license shall be invalid for any other person than the original licensee. (Id. § 13.)

320. Duplicate License.—In the event of a license issued under the authority of this act being lost or accidentally destroyed, a duplicate license may be issued by the State Fish Exchange, hereinafter provided for, upon payment of a fee of five dollars. (Id. § 14.)

321. Display of License.—Every license shall be conspicuously displayed in the place of business for which it is issued, or upon request must be shown by any licensee having no established place of business. (Id. § 15.)

322. "State Fish Exchange" Created.—To carry out the provisions of this act, there is hereby created a "State Fish Exchange" as a department of the State Commission Market, created by chapter seven hundred thirteen of the statutes of nineteen hundred fifteen, approved June 10, 1915, and of the State Market Commission created by the "State Market Commission Act."* The State Fish Exchange shall have a secretary who shall execute a bond to the people of the State of California in the sum of ten thousand dollars for faithful performance of his duties. The State Market Director shall have authority, subject to the State Civil Service act, to appoint all employees of the State Fish Exchange necessary to carry out the provisions of this act and shall fix their compensation. (Id. § 16.)

On or before the tenth day of each month, the State Fish Exchange shall remit to the State treasury all moneys collected by said exchange under this act, during the preceding month. All such remittances shall be placed to the credit of the State Fish Exchange fund and said fund shall be kept separate and apart from other State moneys. All expenses of whatsoever nature incurred by said exchange pursuant to the provisions of this act, including the actual and necessary traveling and other expenses of its employees incurred while on business of the exchange and including the premium and charge for bonds given by surety companies for employees of the exchange when required by the State Market Director or by the provisions hereof, shall be paid from the said fund, after approval by the State Market Director, upon claims to be audited by the State Board of Control, except as provided in section nineteen of this act. (Id. § 18.)

325. Revolving Fund.—A revolving fund of five hundred dollars shall be established by the State Board of Control out of the State Fish Exchange fund for expenses of the State Fish Exchange, other than salaries, rent and other regular expenses, and the State Market Director may expend such revolving fund without first procuring the authority of the board of control, but shall file vouchers therefor monthly with the Board of Control. (Id. § 19.)

326. Payments to State Market Commission Fund.—A sum equaling five per cent of the gross receipts of the State Fish Exchange shall be paid out of the State Fish Exchange fund, monthly to the credit of the State Commission Market

327. Educational and Publicity Campaigns.—Any surplus over and above the expenditures of the State Fish Exchange in the State Fish Exchange fund shall be expended by said exchange, under the direction of the State Market Director, in educational and publicity campaigns for the purposes of increasing the consumption of fresh food fish, and of enabling the public to obtain fish at reasonable prices. (Id. § 21.)

328. Fish Exempted.—Nothing in this act shall be construed as applying to fish bought or sold for canning, curing or packing; or as requiring the payment of license fees by canners, curers, or packers of fish; or to fish caught by other than market fishermen; or to fish sold direct by fishermen to private consumers; or to fish caught in waters within the State privately owned, or to crustaceans or mollusks except that provisions of section 7 as to destruction or diversion of food fish shall be of general application. (Id. § 22.)

329. License Suspended or Revoked.—Any license issued under the authority of this act may be suspended or revoked by the State Market Director in his discretion, as herein provided, or upon evidence that the holder thereof has been or is a violator of the provisions of section 6 of this act, authorizing the fixing of maximum prices on fish, or of the fish and game laws of the State, as evidenced by conviction in any court of competent jurisdiction; or any such license may be suspended in the discretion of the State Market Director for a period not to exceed thirty days for any violation of the rules and regulations provided for in section 17. Such suspension or revocation shall be made only after due notice of such intention has been given the offender and an opportunity given him to rebut the charge at a formal hearing by the State Market Director, at which hearing the accused shall be entitled to be represented by attorney. (Id. § 23.)

330. Statement of Fish Caught.—The State Market Director may require from any person engaged in marketing fish a written statement as to the amount and varieties of fish caught, or on hand, or sold by said person. Failure to furnish such statement on demand shall be good and sufficient grounds for the suspension of license issued under the provisions of this act, at the discretion of the State Market Director, for a period not exceeding thirty days. (Id. § 24.)

331. Seal.—The State Fish Exchange shall have a seal bearing the inscription "State Fish Exchange, State of California, seal," which seal shall be affixed to all instruments, including licenses, issued under the provisions of this act. (Id. § 25.)

332. Investigations; Subpoenas.—(a) The State Market Director may make investigations concerning all matters relating to the provisions of this act. In connection therewith he shall have the right to inspect the books and records of any person engaged in marketing fish, and the State Market Director is hereby empowered to hear complaints, administer oaths, certify to all official acts, and to issue subpoenas for the attendance of witnesses and the production of papers, books, accounts, documents and testimony in any inquiry, investigation, hearing or proceeding in any part of the State.

(b) Subpoenas. The Superior Court in and for the county, or city and county, in which any inquiry, investigation or proceeding may be held by the State Market Director, shall have the power to compel the attendance of witnesses, the giving of testimony and the production of papers, including books, accounts and documents, as required by any subpoenas issued by the State Market Director. The court upon petition of the State Market Director shall enter an order directing the witness to appear before the court at a time and place to be fixed by the court in such order, the time to be not more than ten days from the date of the order, and then and there show cause why he had not attended and testified or produced said papers before the State Market Director. A copy of said order shall be served upon said witness. If it shall appear to the court that said subpoena was regularly issued by the State Market Director, the court shall thereupon enter an order that said witness appear before the State Market Director at a time and place to be fixed in such order, and testify or produce the required papers, and upon failure to obey said order, said witness shall be dealt with as for contempt of court. (Id. § 26.)

333. Penalty.—Any violation of the provisions of section 7 of this act as to destruction or diversion of food fish, of section 9 as to licenses required, or of section 10 as to license regulations, or of section 15 requiring licenses to be displayed or shown, shall be a misdemeanor punishable by a fine not exceeding five hundred dollars or by imprisonment not exceeding ninety days, or by both such fine and imprisonment. (Id. § 27.)

373. Standards for Fruits, Nuts and Vegetables Established.—To promote the development of the California fresh fruit, nut and vegetable industry and to prevent deception in the packing, shipping or sale of fruits, nuts and vegetables for State or interstate shipment, there are hereby created and established certain standards and standard packages for walnuts, avocados, apricots, berries, cantaloupes, cherries, grapes, melons, oranges, peaches, pears, plums, quinces, head lettuce, onions, potatoes, sweet potatoes and tomatoes. The Director of Agriculture shall have supervision and control over all enforcing officers of this act in the State of California. The refusal of any officer to carry out the orders and directions of the Director of Agriculture in the enforcement of this act shall be deemed neglect of duty. The Director of Agriculture is also empowered to establish and enforce such additional grades and grading rules as may be deemed necessary on fruits, nuts and vegetables, which shall not conflict with any provided for in this act, after a thorough investigation has been made of the needs of the particular fruit or vegetable for which grades are contemplated. Such grades or grading rules must, before they become effective, be approved in one or more public meetings attended by representative growers and shippers of the locality interested in the industry affected. Such meetings shall be advertised at least once in a newspaper published in that locality one week or more prior to the meetings; said meetings shall be presided over by the Director of Agriculture, or any of his duly authorized agents, and shall, in so far as possible and practicable, be conducted at such place or places that can be conveniently reached by representatives of the affected industry. In like manner the Director of Agriculture may provide for standard packages other than those provided for in section 7 of this act. Grades and grading rules established in accordance with the provisions of this section shall not be modified during the current shipping season of the fruits or vegetables for which such grades were established excepting as hereinafter provided, nor shall standard packages be changed without two years' notice to the industry involved. On receipt of a written appeal signed by at least twenty-five representative growers and shippers of the commodity for which grades, grading rules or standard packages have been established under the provisions of this section, protesting against the grades, grading rules or standard packages so established, the Director of Agriculture shall call a hearing within ten days after the receipt of such an appeal. Due notice shall be given by the Director of Agriculture to all interested parties of the date and place of such hearing and the grades, grading rules or standard packages established shall be sustained, modified, or revoked in the discretion of the Director of Agriculture on the basis of the evidence presented. If such grades, grading rules or standard packages are not changed or modified by the Director of Agriculture in accordance with the provisions of this section they shall continue to be in full force and effect. Grades, grading rules and standard packages established under the provisions of this section shall be promulgated by the Director of Agriculture, published in one or more newspapers and farm journals of general circulation in the State of California. The Legislature hereby declares that the establishment by the Director of Agriculture of such additional standards and grading rules, as provided by this section, constitutes merely the necessary expert and technical definition of details and is not considered by the Legislature as a legislative act on the part of the Director of Agriculture. (Id. § 4.)

When two or more varieties are packed or placed in a container, they shall be labeled "mixed varieties." In addition to the other marks required, all packages of walnuts when sacked for shipments or sale, shall be plainly and conspicuously marked in letters not less than one and one-half inches in height, in the English language, with the name of the State or of the foreign country where the nuts were produced.

No containers or subcontainers of fruits, nuts or vegetables shall bear grade or other designations that are in any way false or misleading. Nothing in this act shall be construed to conflict with any California or Federal regulations regarding net weight markings on containers or subcontainers.

Containers in which the fruit in the top layer only is placed in regular compact arrangement, excepting cherries, berries and grapes, shall be labeled "face and fill" in lieu of the approximate number of fruits. (Id. § 8.)

380. Fresh Fruits and Vegetables to be Sold in Standard Containers.—

(Id. § 9.)

381. Sugar Content of Grapes; Standard for Emperor Grapes; Label; Standard for Oranges; Frosted Citrus Fruit; Standard for Head Lettuce; Cantaloupes; Avocados.—Grapes shall show a sugar content of not less than seventeen per cent Balling scale, except Burger, Emperor, Gros, Coleman, Pierce Isabella, Olivette Blanche, Ladyfinger, Khalili, Persian 23 and Cornichon, which shall show not less than sixteen per cent Balling scale; provided, however, that in cases where lower sugar content is required for processing, preserving or manufacturing grapes than is established in this section, the Director of Agriculture is authorized to issue a permit for delivery of same, such permit to be a matter of public record in the Department of Agriculture. Containers of grapes moved under special permit shall be conspicuously marked in letters not less than one-half inch in height "low sugar content." Permits so issued shall be revocable at any time upon proper showing being made to the Director of Agriculture.

The following standard is hereby established for Emperor grapes packed in sawdust or similar packing material. "Fancy," sawdust pack, shall consist of bunches of well developed Emperor grapes which are uniformly well colored, mature, firmly attached to capstems, not shattered, split, crushed, wet, soft, wilted or scarred, which are free from shot berries, raisining or raisined berries, sunburned or dried berries, waterberry, mildew, mold, decay and from damage caused by other disease, insects or other means. Stems shall be mature and shall not be weak, dry or brittle. Bunches shall not be excessively straggly and shall be not less than six inches in length, measured from shoulder to tip. Berries shall have a minimum diameter of five-eighths ($\frac{5}{8}$) of an inch, measured through the widest portion of the cross-section. In order to allow for variations incident to the proper grading and handling, not more than 10 per cent by weight of the bunches may be between five and six inches in length and, in addition, not more than 5 per cent by weight of the berries may be below the prescribed size. Not more than 5 per cent tolerance by weight may be allowed for grapes which fail to meet the remaining requirements of this grade, but no part of this tolerance shall be allowed for berries which are affected by mold or decay.

Any package of grapes which meet[s] the requirements of this grade may be marked as "Fancy" or as "U. S. Fancy Sawdust Pack," but no package of Emperor grapes packed in sawdust or similar packing material shall bear any other designation of quality or grade, excepting that the term "Unclassified" may be marked on any package.

Oranges shall not be deemed mature for packing, shipment, delivery for shipment or sale under the provisions of this act unless the juice contains soluble solids

equal to or in excess of eight parts to every part of acid contained in the juice, the acidity of the juice to be calculated as citric acid without water of crystallization; provided, that the oranges have attained at least twenty-five per cent yellow or orange color before picking; provided, however, that oranges which are substantially or at least seventy per cent colored at the time of picking shall be deemed properly matured for shipment or sale, irrespective of analysis of the juice. The foregoing provisions shall not apply to shipments of oranges to foreign countries other than the Dominion of Canada, during any season, provided such shipments are not made before the first day of November.

It is unlawful for any person, firm or corporation to pack, ship, offer for shipment, sell or offer for sale, citrus fruit in boxes or other containers or in bulk, if the contents of any package or if the fruit in bulk contains fifteen per cent or more citrus fruits by count showing marked evidence of frost injury.

Marked evidence of frost injury in citrus fruits is hereby defined as a water-soaked appearance or evidence of previous water-soaking or the presence of crystals or crystalline deposit on the two surface membranes of each of two or more segments, as shown on the separation of the segments, one from another, of a section not less than one inch or more than one and one-half inches in thickness of the central portion of the fruit obtained by cutting off a portion of each end—the evidence of frost injury to show for the entire length but not necessarily the entire area of the surface membranes—or a drying or desiccation in twenty per cent or more of the exposed pulp as shown on a transverse cut through the center.

Head lettuce when packed, or after packing, or when shipped, delivered for shipment, offered for sale or sold as a standard pack, shall contain either three dozen, three and a half dozen, four dozen or five dozen heads of lettuce per crate. All head lettuce shall be tightly packed with a slight bulge of crates when lidded and crates shall contain not more than thirty pounds of ice. Crates in which lettuce does not conform to the above standards shall be conspicuously marked "irregular pack" in letters not less than one-half inch in height.

Cantaloupes shall not be considered mature unless the juice of the edible portion of the cantaloupe contains not less than nine per cent soluble solids as determined by the Brix hydrometer. Cantaloupes shall be considered unfit for shipment when soft or overripe.

Avocados shall not be considered mature when the edible portion shows an oil content of less than eight per cent by weight by chemical analysis. (Id. § 10.)

It shall be the duty of all enforcing officers mentioned in this act to carry out the provisions of this act in their respective districts, and to cause the prosecution of any person, firm, corporation or organization, whom they know or have reason to believe to be guilty of the violation of any of its provisions. Any enforcing officer in the performance of his duties shall have the same powers possessed by peace officers of the city, county or State, and shall have the right while exercising such police powers to seize and hold as evidence part or all of any pack, load, consignment or shipment of fresh fruits, nuts or vegetables packed, shipped, delivered for shipment, offered for sale or sold in violation of this act, as may in his judgment be necessary to secure the conviction of the party he knows or believes has violated or is violating any of the provisions of this act. He may start proceedings in any court of the county, or city and county, within his jurisdiction, to secure the conviction of the party or parties who have violated any of the provisions of this act. It shall be the duty of the district attorney of said county, or city and county, in which any violation of this act may occur, to prosecute the person, firm, company, organization or corporation accused of such violation and also, at the request of the Director of Agriculture or his duly authorized agents, to institute and prosecute such action as may be authorized under the provisions of this act. (Id. § 12.)

384. Rejection of Shipments Delivered in Violation of Act.—It shall be lawful for any forwarding company, person, firm, corporation or organization and for any common carrier to decline to ship or transport any nuts or fresh fruits or vegetables which upon inspection are found to be delivered for shipment in violation of any of the provisions of this act, and any such forwarding company, person,

firm, corporation, organization or a common carrier may reserve the right in any receipt, bill of lading or other writing given to the consignor thereof, to reject for shipment and to return to such consignor or hold at the expense and risk of the latter, all nuts and fresh fruits and vegetables which upon inspection are found to be delivered for shipment in violation of the provisions of this act. Such investigations shall not be made or such certificates issued by any person not specially authorized by the Director of Agriculture. Provided, further, that no certificate shall be issued by the State or any person, firm, corporation or organization for fruits, nuts or vegetables of a kind specified in this act unless such fruits, nuts or vegetables have been inspected and found to meet the requirements of this act. Any certificate issued by the State or any person, firm, corporation or organization under the provisions of this act shall truly state the grade, quality and condition of the fruits, nuts or vegetables certified, and a true copy of such certificate shall be furnished to the Director of Agriculture or the county horticultural commissioner on demand. All moneys collected under the provisions of this section shall be paid into the "standardization fund," which fund is hereby created, and of which one thousand dollars (\$1,000) may be used as a revolving fund, subject to the approval of the State Board of Control. The "standardization fund" shall be held subject to the uses of the Director of Agriculture for the purpose of carrying out the provisions of this section. Within ninety days after the end of each fiscal year the director of Agriculture shall prepare a statement showing the receipt and expenditure of funds provided for in this section during the fiscal year, and shall, upon written request, forward a copy of this report to any party financially interested in the inspection work conducted under the authority of this section. Any standard for grains now or hereafter made mandatory under authority of the Congress of the United States, shall forthwith be established and promulgated by the Director of Agriculture as the official standards of this State. In establishing grades for grain that is sold on a dockage basis, dockage shall be considered and such dockage that is of value and retained shall be paid for. Dockage as used therein shall be understood to mean dockage as defined in the official grain standards of the United States. (b) To make, amend, or repeal rules and regulations for the grading and inspecting of grain, for the purpose of carrying out the provisions of this act, provided that all such rules shall be published by him in such manner as to give proper publicity thereto. The Director of Agriculture shall inspect and grade upon request all grain sold, offered for sale, or consigned for sale. He shall issue a uniform grade certificate stating the kind and grade of grain, test weight per bushel, and the reason for all grade below number one, and such other facts as he may require; provided, however, that none of the facts certified in such certificate shall be presumed to continue or exist beyond sixty days after the date of such certificate; provided, further, that certificates issued by authorized agents of the Department of Agriculture shall be received in all courts of the State of California as prima facie evidence of the truth of the statements therein contained at the time of the issuance of said certificate and for sixty days thereafter. The State Board of Pharmacy may at any time, when in their judgment it appears advisable, depute one of their members, or any other competent person, to investigate any suspected violation of any of the provisions of this act, and if the result of such investigation seems to the board to justify such action the board shall cause the prosecution of any person violating any of the provisions of this act. All fines recoverable under this act shall be paid by the magistrate receiving the same to the State board of pharmacy. Any person convicted of violating the provisions of this act the third time shall in addition to the penalties hereinbefore mentioned have his or her registration as a pharmacist canceled. Nothing in this act shall apply to or interfere with any practitioner of medicine who is duly registered as such by the State Board of Medical Examiners of this State with supplying his own patients, as their physician, and by them employed as such, with such remedies as he may desire and who does not keep a pharmacy, open shop, or drug store, advertised or otherwise for the retailing of medicines or poisons, nor does this act apply to the exclusively wholesale business of any dealer. Nor does this apply to registered, trade-marked or copyrighted proprietary medicines, registered in the United States patent office nor to the sale of proprietary medicines,

when manufactured under the supervision of a registered pharmacist in the State of California for which trade-marks may have been filed with the Secretary of State of California, by merchants possessing a license issued by the Board of Pharmacy as described in section 16 of this act. (Id. § 12.)

The issuance of such temporary certificate shall not entitle the holder thereof to a permanent certificate, and no permanent certificate shall be issued to such holder until he passes a satisfactory examination by the board. Only one temporary certificate shall ever be issued to the same applicant, and no temporary certificate shall be granted to any person whose application has been denied by the board. The member or authorized inspector conducting the examination as herein set forth shall be entitled to charge and receive the sum of three dollars for such certificate, said moneys to be paid to the board of pharmacy. The Board of Pharmacy shall adopt a standard of qualifications regarding schooling and preliminary qualifications for all persons desiring to be registered as apprentices, as provided for in this section. The pharmaceutical experience of every apprentice shall, after the passage of this act, be deemed to begin on the date on which he began the study of pharmacy, and such date shall be inserted in the certificate of registration of said apprentice, provided the preliminary qualifications have been found satisfactory by the board. Sworn testimony shall be furnished the board upon which they shall determine the date as aforesaid. The date so determined and entered as aforesaid shall be deemed to be the beginning of the applicant's pharmaceutical experience for the purpose of this act; provided, that the students matriculating and attending any reputable college of pharmacy shall be registered as apprentices upon such facts being shown. The board shall keep a register for the registration of apprentices and furnish upon application proper blanks for this purpose. No apprentice shall be permitted to sell drugs, medicines, or poisons, or compound prescriptions except under the direct, immediate and personal supervision of a registered pharmacist. No registered apprentice shall ever be left in charge of a pharmacy. No applicant for registration as an apprentice shall be registered as such if such applicant has had more than three years' experience in a pharmacy, but must apply for registration as assistant pharmacist. (Id. § 15.)

Upon such request in writing, it shall be the duty of the chief of police, marshal, or constable of said city, town or township to require the patrolmen or deputies under their command, upon their respective beats, to obtain such lists as are in this section specified, and deliver the same to the Board of Pharmacy. Such book must always be open to inspection by the proper authorities. A person dispensing any of the substances enumerated must ascertain, by due inquiry, whether the name and address given by the person receiving the same are his true name and address, and for that purpose may require such person to be identified. Every person who violates any of the provisions of this section is guilty of a misdemeanor, and punishable by a fine not exceeding five hundred dollars or by imprisonment in the county jail not exceeding six months, or by both such fine and imprisonment. (Id. § 380.)

521. Place Where Narcotics Unlawfully Sold, a Nuisance.—Every building or place used for the purpose of unlawfully selling, serving, storing, keeping, or giving away any opium, morphine, cocaine or heroin, and every building or place wherein or upon which said narcotics are unlawfully sold, served or given away, or allowed to be used, is a nuisance which shall be enjoined, abated and prevented as hereinafter provided, whether the same be a public or private nuisance. (Supp. 1925, G. L., Act 5319, § 1.)

*See No. 506.

522. Action to Abate.—Whenever there is reason to believe that such nuisance is kept, maintained or exists in any county or city and county, the district attorney of said county, or city and county, in the name of the people of the State of California, must, or any citizen of the State, resident within said county or city and county, in his own name may, maintain an action in equity to abate and prevent such nuisance and to perpetually enjoin the person or persons conducting or maintaining the same, and the owner, lessee or agent of the building or place, in or upon which such nuisance exists, from directly or indirectly maintaining or permitting such nuisance. (Id. § 2.)

523. Temporary Writ.—The complaint in such action must be verified unless filed by the district attorney. Whenever the existence of such nuisance is shown in such action to the satisfaction of the court or judge thereof, either by verified complaint or affidavit, the court or judge shall allow a temporary writ of injunction to abate and prevent the continuance or recurrence of such nuisance. On granting such writ the court or judge must require, except when it is granted on application of the people of the State, written undertaking on the part of the applicant, with sufficient securities, to the effect that he will pay to the party enjoined such damages, not exceeding an amount to be specified, as such party may sustain by reason of the injunction, if the court finally decides that the applicant was not entitled thereto. (Id. § 3.)

524. Precedence of Action.—The action when brought shall have precedence over all other actions, excepting criminal proceedings, election contests and hearings on injunctions. If the complaint is filed by a citizen it shall not be dismissed by the plaintiff or for want of prosecution, except upon a sworn statement made by the complainant and his attorney, setting forth the reasons why the action should be dismissed, and the dismissal ordered by the court. In case of failure to prosecute any such action with reasonable diligence, or at the request of the plaintiff, the court, in its discretion, may substitute any such citizen consenting thereto for such plaintiff. If the action is brought by a citizen and the court finds there was no reasonable ground or cause for said action, the costs shall be taxed against such citizen. (Id. § 4.)

525. Judgment.—If the existence of the nuisance be established in an action as provided herein, an order of abatement shall be entered as part of the judgment in the case, and plaintiff's costs in such action shall be a lien upon such building and place, enforceable and collectible by execution issued by order of the court. 526. (Id. § 6.)

527. Order of Abatement; Fees.—If the existence of the nuisance be established in an action as provided herein, an order of abatement shall be entered as a part of the judgment in the case, which order shall direct the removal from the building or place of all fixtures, musical instruments and movable property used in conducting, maintaining, aiding or abetting the nuisance and shall direct the sale thereof in the manner provided for the sale of chattels under execution, and the effectual closing of the building or place against its use for any purpose, and so keeping it closed for a period of one year, unless sooner released, as hereinafter provided. While such order remains in effect as to closing, such building or place shall be and remain in the custody of the court. For removing and selling the movable property, the officer shall be entitled to charge and receive the same fees as he would for levying upon and selling like property on execution, and for closing the premises and keeping them closed, a reasonable sum shall be allowed by the court. (Id. § 7.)

528. Proceeds of Sale; Building May be Sold.—The proceeds of the sale of the property, as provided in the preceding section, shall be applied as follows:

First—To the fees and costs of such removal and sale.

Second—To the allowances and costs of so closing and keeping closed such building or place.

Third—To the payment of the plaintiff's costs in such action.

Fourth—The balance, if any, shall be paid to the owner of the property so sold.

If the proceeds of such sale do not fully discharge all such costs, fees and allowances, the said building and places shall then also be sold under execution

issued upon the order of the court or judge and the proceeds of such sale applied in like manner. (Id. § 8.)

529. Release of Property.—If the owner of the building or place has not been guilty of any contempt of court in the proceedings, and appears and pays all costs, fees and allowances which are a lien on the building or place and files a bond in the full value of the property, to be ascertained by the court, with sureties, to be approved by the court or judge, conditioned that he will immediately abate any such nuisance that may exist at such building or place and prevent the same from being established or kept thereat within a period of one year thereafter, the court, or judge, thereof, may, if satisfied of his good faith, order the premises closed under the order of abatement, to be delivered to said owner, and said order of abatement canceled so far as the same may relate to said property. The release of the property under the provisions of this section shall not release it from any judgment, lien, penalty, or liability to which it may be subject to law. (Id. § 9.)

530. Fine a Lien on Building.—Whenever the owner of a building or place upon which the act or acts constituting the contempt shall have been committed or the owner of any interest therein has been guilty of a contempt of court, and fined therefor in any proceedings under this act, such fine shall be a lien upon such building and place to the extent of the interest of such person therein, enforceable and collectible by execution issued by order of the court. (Id. § 10.)

531. "Person" Defined.—The term "person" as used in this act, shall be held to mean and include individuals, corporations, associations, partnerships, trustees, lessees, agents and assignees. (Id. § 11.)

532. Keeping or Restoring to Place Where Opium is Used.—Every person who opens or maintains, to be resorted to by other persons, any place where opium or any of its preparations is sold or given away to be smoked at such place, and any person who, at such place, sells or gives away any opium or its said preparations to be there smoked or otherwise used, and every person who visits or resorts to any such place for the purpose of smoking opium or its said preparations is guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine not exceeding five hundred dollars, or by imprisonment in the county jail not exceeding six months, or by both such fine and imprisonment. (Pen. Code, 1923, § 307.)

532a. Taking Opium, etc., Into Jails.—Any person, not authorized by law, who brings into any State Prison, town or county jail, or city, or city and county jail, or reformatory in this State or within the grounds belonging or adjacent to any such institution, any opium, morphine, cocaine, or other narcotic, or any intoxicating liquor of any kind whatever, or any firearms, weapons, or explosives of any kind, is guilty of a felony. (Id. § 171a.)

532b. Arrest of Inebriates and Drug Habitues; May be Confined in Hospital; Recommitment of Persons Discharged.—Whenever it appears by affidavit to the satisfaction of a magistrate of a county, or city and county, that any person is so far addicted to the intemperate use of narcotics or stimulants as to have lost the power of self-control, or is subject to dipsomania or inebriety, he must issue and deliver to some peace officer for service a warrant directing that such person be arrested and taken before a judge of the Superior Court for a hearing and examination on such charge. Such officer must thereupon arrest and detain such person until a hearing and examination can be had. At the time of the arrest a copy of said affidavit and warrant of arrest must be personally delivered to said person. Such affidavit and warrant of arrest must be substantially in the form provided by section 2168 of the Political Code for the arrest of a person charged with insanity. He must be taken before a judge of the Superior Court, to whom said affidavit and warrant of arrest must be delivered to be filed with the clerk. The judge must then inform him of the charge against him, and inform him of his rights to make a defense to such charge and produce any witnesses in relation thereto. The judge must by order fix such time and place for the hearing and examination in open court as will give a reasonable opportunity for the production and examination of witnesses. Such order must be entered in the minutes of the court by the clerk and a certified copy of the same served on such person. The judge may also order that notice of the arrest of such person and the hearing of the charge be served on such relatives of said person known to be residing in the county, as the court may deem necessary or proper. The hearing and examination shall be had in compliance with the provisions of sections 2169 and 2170 of the Political Code.

The judge, after such hearing and examination, if he believes the person is so far addicted to the intemperate use of narcotics or stimulants as to have lost

the power of self-control, or is subject to dipsomania or inebriety, must make an order that he be confined in a hospital for the care and treatment of the insane designated in such order and the order must be accompanied by a written statement of the judge as to the financial condition of the patient and of the persons legally liable for his maintenance, as far as can be ascertained; provided, that before a person shall be committed to a State hospital, satisfactory evidence shall be submitted to the trial judge showing that a person to be committed is not of bad repute or bad character, apart from his or her habit for which the commitment is made, and that there is reasonable ground for believing that the person, if committed, will be permanently benefited by treatment; and

Recommitment of persons discharged. Provided, further, that no person who has heretofore been committed under the provisions of this section as an intemperate user of narcotics, and who has been discharged or has escaped, shall be again committed to any hospital unless permission for such recommitment be first obtained from the medical superintendent thereof. Such order and statement shall be in substantially the form provided by section 2171 of the Political Code for the commitment of insane persons.

The court shall commit such person for a definite period, not to exceed two years, but provided that he may be paroled by the medical superintendent under the same rules and conditions that the insane are paroled; and provided, further, that the State Commission in Lunacy shall be given the same power to discharge any person committed under this act as contained in section 2180 of the Political Code, upon the recommendation of the hospital superintendent, when satisfied that such person will not receive substantial benefit from further hospital treatment. Such person shall be delivered to the State Hospital for the Insane to which he has been committed in compliance with the provisions of section 2172 of the Political Code, providing for the commitment and deliverance of an insane person. The plans of construction of said hospital and home must be drawn under the direction of the board of health of said county, or city and county.

Second—Commitments. When the building or buildings constructed under the provisions of this section are so far completed that in the opinion of the board of health of said county, or city and county, commitments may properly be made thereto, said board of health shall so notify the magistrates of the said county, or city and county; and thereafter the said magistrates may commit to said hospital and home, for a term not exceeding one year, any person given to dipsomania or inebriety, whether in public or private, and who, in his opinion is a proper subject for its treatment or custody; provided, however, that no such person shall be so committed until satisfactory evidence shall be furnished to the magistrate before whom the proceedings for commitment are had, that such person or persons are not of bad repute or of bad character, apart from their habits of inebriety; and in all proceedings relative to the commitment of any such person, it shall be specifically alleged that they are either dipsomaniacs or inebriates as the case may be.

Third—Permit to be at liberty. When it shall appear to the medical superintendent and the said board of health that any person or persons held in said hospital and home will not continue to be subject to dipsomania or inebriety, or will be sufficiently provided for by themselves or their guardians, relatives or friends, they may issue to them a permit to be at liberty, upon such conditions as they may deem best and they may revoke said permit at any time previous to its expiration. The violation, by the holder of such permit, of any of the terms or conditions of the same, shall of itself make said permit void. When a permit becomes void in any manner the medical superintendent, or a member of the board of health, may issue an order authorizing the arrest of holder or holders of such permit and their return to the hospital and home, and such order of arrest may be served by any officer authorized to serve criminal process in any county, or city and county, of this State. Any person at liberty from the hospital and home upon a permit, as aforesaid, may voluntarily return to the hospital and home and put himself in the custody of the medical superintendent. The holder of said permit, when returned to said hospital and home, as aforesaid, whether

voluntarily or otherwise, shall be detained therein according to the term of his original commitment. Such inmates of said hospital and home as are able to pay for their board shall be charged for the same.

Fourth—Government of home. The board of health of said county or city and county, shall provide for the management and government of said hospital and home for dipsomaniacs and inebriates. The said board of health must appoint a medical superintendent of said hospital and home, and furnish or supply the same with nurses and attaches. The medical superintendent shall be an elector of the county, or city and county, a regular graduate of medicine, licensed to practice, and not less than thirty-five years of age, who shall have for a period of at least one year prior to his appointment, devoted his special professional attention to the treatment of dipsomania and inebriety as physician to the public private home, hospital, asylum, or sanitarium for the care and treatment of dipsomaniacs and inebriates. The medical superintendent shall receive an annual salary of three thousand dollars and shall be paid in equal monthly installments out of the general fund of said county, or city and county, in the same manner as the salaries of other officers of said county, or city and county, are paid. Said medical superintendent shall not be removed by the said board of health except for good cause, duly set forth in a complaint filed with the secretary of said board, a copy of which must be served upon said medical superintendent, and an opportunity given him to be heard in his defense. But such rules and regulations shall not be more stringent than, nor conflict with, the rules and regulations adopted, or which may hereafter be adopted, for the enforcement of the food and drugs act of the United States, approved June 30, 1906, regulating the misbranding or adulteration of drug or food products for interstate commerce. (Id. § 997.)

4. **Examination of Specimens.**—The examinations of specimens of foods and drugs shall be made by or under the direction and supervision of the State Board of Health for the purpose of determining from such examinations whether such articles are adulterated, or misbranded, within the meaning of this act; and if it shall appear from any such examinations that any of such specimens is adulterated, or misbranded, within the meaning of this act, the State Board of Health shall cause notice thereof to be given to the person from whom such sample was obtained. Renovated or process butter may contain a harmless vegetable coloring matter. It shall be unlawful for any persons to use any test tube, bottle, pipette, or instrument in connection with such test, which is not perfectly clean; and for the purpose of this act, any such unclean glassware is declared to be inaccurate.

In the use of the Babcock test, the standard milk measure or pipettes shall have a capacity of 17.6 cubic centimeters, and the standard test tubes or bottles for milk shall have a graduated capacity of two cubic centimeters for each 10 per cent marked on the necks thereof; cream shall be tested by weight and the standard unit for testing shall be 9 grams or 18 grams, and it shall be unlawful to use any other standards of milk or cream measures in creameries or cheese factories or any other place where milk or cream is purchased by or furnished to a receiver and the value of said milk or cream is determined by the per cent of butter fat contained in the same.

It shall be unlawful for any manufacturer, merchant, dealer or agent, to offer for sale or to sell a milk pipette or measure, test tube, or bottle which is inaccurate or not correctly marked or graduated as herein described.

In sampling cream or milk from which composite tests are to be made, to determine the per cent of butter fat contained therein, no such sample or sampling shall be lawful unless a sample be taken from each weighing and the quantity thus used shall be proportioned to the total weight of the cream or milk sampled.

It is hereby required in making tests of milk or cream for the purpose of determining the value of such milk or cream when bought, or sold, that the milk shall be poured once from one vessel to another and that cream shall be poured from one vessel to another, at least three times before sampling, unless the said milk or cream is thoroughly stirred and sampled by the "McKay" sampler, or some other recognized sampler that will secure a representative sample.

All tests shall be maintained in a water bath for five minutes at a temperature between 120 degrees and 130 degrees F. until read. (Except when glymol or other light reading oil is used for cream tests, the tests shall be held at a temperature between 135 degrees and 140 degrees F. in a water bath for five minutes until read.) All oils used in reading tests shall be approved by the State Dairy Commissioner.

It shall be unlawful after the passage of this act, for any person to sample or test milk, cream, or other dairy products for the purpose of determining the value of such products when bought and sold or to instruct another person for such purpose without first having a license granted by the State Dairy Commissioner and such license shall be conspicuously displayed in his place of business. All testers' licenses in force June 30, 1923, shall become null and void upon that date.

Upon application, and payment of a yearly license fee as follows: two dollars (\$2.00) for each milk or cream receiving station or skimming station and ten dollars (\$10.00) for each concentrating station, milk plant, condensary, cheese factory, ice cream factory or other places of business where dairy products are manufactured or put in containers for sale or distribution, a temporary permit may be issued by the State Dairy Commissioner, such permit to be valid until an inspection shall have been made by an agent of the State Dairy Commissioner, when, if the applicant has complied with the requirements of the dairy laws, the State Dairy Commissioner shall issue a license for a period of one year dating from July first next preceding the actual date of issue.

The State Dairy Commissioner shall have power to issue necessary regulations for the government of licensed plants, and licensed testers, covering such points as disposal of sewage, location with regard to living rooms and other possible sources of contamination, and other points not specifically mentioned in the dairy laws.

These regulations shall have the force and effect of law, and the State Dairy Commissioner shall have power to cancel a license for a period not exceeding ninety days when he shall find that the holder thereof has violated the law or regulations, provided that suit may be brought against the State to establish the reasonableness of a regulation, and if the decision affirms the reasonableness of the regulation, it shall be enforced.

The money for all license fees as provided for in section 9 of this act [3076] shall be paid to the State Dairy Commissioner, by whom it shall be transmitted to the State Treasurer, to be deposited in the general fund. (Id. § 3076, as amended, L. 1923, c. 97.)

No person shall manufacture for sale within this State, or offer or expose for sale, have in his possession with intent to sell, or sell or exchange, or for evaporated or condensed cream, any substance except the product obtained by the evaporation of a portion of water from cream containing not less than eighteen (18) per cent, by weight, of butter fat; provided, that nothing in this act shall apply to goods manufactured within this State for sale and shipment outside of the State. (C. L. 1921, § 3077.)

(Id. § 3079.)

55. Such bricks, prints or rolls shall be wrapped and sealed and upon such seal shall be plainly printed the name and address of the manufacturer of said oleomargarine, and the said package shall be plainly and conspicuously labeled with the word "Oleomargarine" in Gothic or equally conspicuous letters at least three-eighths of an inch high. Said seals shall be so affixed to the one-half of one pound, one, two, three and five-pound bricks, prints or rolls as to seal the wrappers thereof so that such wrappers or cover may not be opened without destroying the seal affixed thereto. Said bricks, prints or rolls may be packed by the manufacturer thereof in wooden or other packages or containers, each containing not less than ten pounds. All sales made by manufacturers of oleomargarine and wholesale dealers in oleomargarine shall be in the original

manufacturer's packages, as described above, in quantities of ten pounds or more at one time. Retail dealers in oleomargarine shall sell only from the manufacturer's original packages and in the manufacturer's sealed, subdivided packages, to wit: one-half of one pound, one, two, three or five-pound bricks, prints or rolls, and in quantities of ten pounds, or less, at one time. Illegible or concealed marks and brands are not those contemplated and required by the law and regulations. It will not be deemed a compliance with this regulation if the word "Oleomargarine" and the other required words and figures shall be illegibly branded or printed, or so placed as to be concealed from view by being on the inside of the package, or by folding in the stamped portion of the paper sheet used for wrapping or otherwise. The required words and figures must be placed, and no other word or business card should be placed in such juxtaposition thereto as to divert attention from the fact that the contents of the package are wholly oleomargarine. The color of the ink with which the words are printed must be in the strongest contrast to the color of the package. Every person, company or corporation, or any agent of any company or corporation, who violates any provision of this act, or who sells or offers for sale, or delivers, or offers to deliver any oleomargarine in any other form of package than as above described, or who packs in any package any oleomargarine in any manner contrary to law, or who falsely brands any package, or affixes a stamp or brand on any package, denoting that it contains other than oleomargarine, shall be fined for the first offense not more than five hundred dollars (\$500), and shall be imprisoned for not more than thirty (30) days in the county jail, and for a second, or other offense, shall be fined not more than one thousand (\$1,000) dollars and imprisonment in the county jail for one month to twelve months, in the discretion of the court. Every person is cautioned not to use either this package again or the stamp thereon again, nor to remove the contents of this package without destroying said stamp, under the penalty provided by law in such cases.

Every manufacturer of oleomargarine who neglects to affix such label to any package containing oleomargarine made by him, or sold or offered for sale by or for him, and every person who removes any such label so affixed from any such package shall be fined \$50.00 for each package in respect to which such offense is committed. (Id. § 3083.)

59. Prosecutions—Special Counsel—Disposition of Fines.—The State Dairy Commissioner shall prosecute or cause to be prosecuted any person, firm or corporation engaged in the production, manufacture or sale of any unsanitary, adulterated or counterfeit dairy product in violation of law, and any person, firm, corporation, or legal body violating the provisions of this act. The district attorney of the county in which a violation of any such law has occurred shall, when called upon by the commissioner or either of his assistants to do so, give all aid he can to secure the execution of the law and shall prosecute cases arising under the provisions of this act or other provisions of Colorado statutes relating to dairy products. It is here recognized that the standardization of the fruit and vegetable industry by the proper classification and grading of fruits and vegetables (except cantaloupes and melons), by prompt and efficient inspection under competent authority is beneficial alike to producer, shipper, carrier, receiver and consumer, in that it furnishes the producer and the shipper with prima facie evidence of quality and condition of products, it guarantees the carrier and the receiver as to the quality and condition of products carried and received by them and assures the ultimate consumer of the quality and condition of products which he is purchasing. (L. 1925, c. 96, § 1.)

Such fees shall be uniform throughout the State of Colorado for the particular service rendered. The amount of such fees shall be fixed annually on the first day of July of each year and shall remain as so fixed until the first day of July of the following year. The amount of such fees on the different commodities and for the different services rendered under the provisions of this act shall be determined as near as may be to the end that the inspection service provided by this act shall pay for itself out of the annual aggregate amount of such fees collected under the provisions of this act, together with any appropriation made for the "Fruits and Vegetables Inspection Fund" created by this act, and any other sums properly credited to said "Fruits and Vegetables Inspection Fund." Such fees shall be paid by the person requesting the service of inspection at the time such service is rendered. Whenever an appeal to the "Director" shall be taken as herein provided he shall fix and assess, and collect or cause to be collected a reasonable fee, which shall be uniform, and which shall be refunded to the person paying the same, if, the findings of the "Director" on appeal are to the effect that the grade or classification as determined and certified on the original inspection were erroneous, and a new or different grade or classification is determined by the "Director." Any re-inspection certificate issued as the result of an appeal shall supersede the original inspection certificate. (Id. § 5.)

76. Creation of "Fruits and Vegetables Fund"—Collection, Custody and Use of Fund—How Paid Out.—There is hereby created a special fund to be known as the "Fruits and Vegetables Inspection Fund" which shall be a continuing fund. All fees and other moneys collected under the authority of the provisions of this act shall be turned over to the Treasurer of the State of Colorado and shall be by him credited to said fund. The "Director" is hereby authorized and empowered to prescribe such rules and regulations governing the issuance of such certificates and to fix a reasonable fee to cover the cost of the issuance of such certificates. (Id. § 7.)

"Director" Employ Assistants and Pay Same on Car Lot Basis.—The "Director" is hereby authorized and empowered when he deems it necessary and conducive [conducive] to economical administration under the provisions of this act to employ inspectors, employees and agents to make inspections and pay such inspectors and agents or employees fees on a carlot basis instead of a per diem. (Id. § 8.)

79. Appropriation—Purpose.—The sum of five thousand dollars (\$5,000) is hereby appropriated out of any money in the Treasury not otherwise appropriated to be paid into the "Fruits and Vegetables Inspection Fund" for the purpose of carrying out the provisions of this act and for use as herein authorized. Unless otherwise provided by law, the county sealer shall have power, within his county, to inspect, test, try and ascertain the correctness of all weights, scales beams, measures, instruments or mechanical devices for measuring, and tools, appliances or accessories connected with any such instruments or measures kept, offered or exposed for sale, sold or used

He shall, at least twice each year, and as much oftener as he may deem necessary, see that the weights, measures and all apparatus used in the county, including those under the care of city and town sealers of weights and measures, are correct. He may, for such purpose, and in the general performance of his official duties, enter, without warrant, into or upon any stand, place, building or premises, or stop any vendor, peddler, junk dealer, driver of any coal wagon, ice wagon or delivery wagon or any dealer and require him, if necessary, to proceed to some place which said sealer may specify, for the purpose of making the proper tests. Nothing in the foregoing provisions shall be construed to prevent two or more counties from combining the whole or any part of their respective counties, as may be agreed upon by the County Commissioners, with one set of standards and one sealer, upon the written consent of the State Superintendent of Weights and Measures. A County Sealer appointed in pursuance of an agreement for such combination shall, subject to the terms of his appointment, have the same authority, jurisdiction and duties as if he had been appointed by each of the authorities who are parties to the agreement. In those cities in which no sealer is required by this section, the County Sealer of the county shall perform the same duties and have the same powers as in the county. Nothing in the foregoing provision shall be so construed as to prevent any county and any of the cities situated therein from combining the whole or any part of their respective territories, as may be agreed upon, with one sealer, subject to the written approval of the State Superintendent of Weights and Measures. A sealer appointed in pursuance of any agreement for such combination shall, subject to the terms of his appointment, have the same jurisdiction and duties as if he had been appointed by each of the authorities who are parties to the agreement. 53. Inaccurate Tests Not Basis for Payment.—No percentage of fat ascertained from a sample, containing milk or cream, that has been so treated as to cause it to test lower or higher than the test of the milk or cream from which it was taken, shall be used as a basis of payment for milk or cream purchased or sold. No composite sample shall be tested for use as a basis for payment of milk, which has been kept more than fifteen days after such composite sample has been completely taken. (Id. § 6.)
